AUTO DASHES INTO A TRAIN

LOVE LETTERS TO A MARRIED MAN

FEARFUL CRASH IN THE NIGHT

"Demon" Galloway Luckily Escapes, but C. H. Fyfe Is Badly Injured in the Accident.

An automobile going at the rate of fifty miles an hour, driven by Jack Galloway, known as the "demon driver," dashed into the Piedmont Key route train at Fortieth and Adeline streets at 1:15 o'clock this morning.

Galloway was accompanied by C. H. Fyfe of 207 Thirteenth street. Mr. Fyfe had secured Mr. Abrams' machine and was temporarily using it. Abrams lives at Suisun. The machine broke down at Fifty-third and San Pablo avenue.

Fyfe came to a local garage to get assistance last night and Galloway was ordered to take a big machine to the scene at once, in order to tow back the broken automobile.

The Piedmont train was going back to the power-house empty and was running across San Pablo avenue at the rate of thirty miles an hour. It struck the automobile near the front. Instantly there was a terrific crash. Fyfe shot through the air thirty feet, landing on his head in the roadway. He was taken to the Receiving Hospital, where his scalp wounds were dressed.

Galloway remained with the machine and was dragged some sixty feet, the machine being sent across the road clear across the sidewalk.

The demon chauffeur escaped with a few scratches on his face. The automobile, valued at $3000, is a total wreck.

George Purvis was the motorman on the train and Campbell was the conductor. Both escaped injury.

It appears that in the disabled machine on the county road were: Arthur Grant and George Neale, of Oakland, and John Fitzpatrick, of San Francisco. They were waiting for the relief automobile. It was a long time before they heard of the accident.

Fyfe is a traveling salesman for Theo. Gier & Co., liquor dealers.

KILLED BY A WOMAN

Mrs. Lola Reed Murders John . Mahon During a Fit of Jealousy.

MRS. LOLA REED.

JOHN MAHON.

A letter written for a joke and which fell into the hands of a bitterly jealous woman resulted in a double tragedy in this city last night, when Mrs. Lola Reed, the young and attractive wife of Jack Reed, a well known artist, shot and instantly killed John T. Mahon, manager of a local baking establishment. With her mind aflame with jealousy and because of the act which she had just committed, she then ended her own life by firing a bullet through her brain.

BODIES DISCOVERED.

It was shortly after 9 o'clock last night in the apartments of Dr. Luella Cool Walker, at Thirteenth and Washington streets, that the tragedy took place. There were no eye witnesses to the affair, and when Dr. Cool arrived on the scene she found the dead bodies of the man and woman, the latter with a revolver still in her hand, lying in their own blood on the office floor.

KILLED WHILE TELEPHONING.

Mahon was killed while he was seated at the telephone in the dining room. A telephone operator in the central office was probably the first to know that a tragedy had been enacted. She heard a muffled pistol report, followed by a woman's screams, and a second shot. It was but a few moments after this that Dr. Cool discovered the bodies which were later removed to the morgue.

APPARENTLY HAPPY.

About an hour before the killing Manager Marcovich of the Gas Kitchen restaurant on Thirteenth street, which is just a few doors below Dr. Cool-Walker's apartments, saw Mahon and Mrs. Reed in an apparently happy frame of mind, walking past the door of the restaurant. She had her arms around her escort's neck, and the man-

WALL IS BETTER

The Young Millionaire Has a Fighting Chance for His Life.

By W. L. GOODRUM, Chauffeur.

Mr. Wall's touring car, a heavy machine of three seats, and made to accommodate seven persons, was coming back from Santa Cruz about 2 o'clock yesterday morning and was in the vicinity of Fruitvale when the collision with the milk wagon occurred.

Mr. Wall was seated in front driving the machine and next to him was Mrs. Kesner. One of the two seats in the center of the car was occupied by Mr. Dennigan and the other was empty. In the rear were Mr. Habornicht, with Mrs. Becker, sister of Mrs. Kesner, in the center and myself in the other outside seat. Mr. McBride was not of our party, but came up later in another automobile.

The blame for the collision belonged to the driver of the milk wagon, as he admitted to me afterward. He had apparently been backing his wagon across the road and was driving toward us, but on the wrong side of the street when the accident occurred. We did not see him until we were right upon him, as he had no light whatever.

The right fender of our machine struck the horse on the chest, killing him instantly, and the shaft was thrown into the air. It was this that struck Mr. Wall in the breast and threw him from the front seat over into the tonneau in the rear.

Mrs. Kesner was thrown into the air by the mere force of the contact and landed unconscious in the street. We picked her up and carried her to the sidewalk. She recovered consciousness in a very few moments.

Mr. Wall did not lose his senses and was able to give directions as to what was to be done, etc. Mr. Wall, Mrs. Kesner and Mr. Dennigan were the only ones injured. Mr. Dennigan sustained a few cuts and scratches about the head and face. Mrs. Kesner has a bruise on her forehead, a cut on the back of her head and a few scratches.

I think Mr. Wall should have a good chance to recover, as he has a fine constitution and has never touched liquor in his life.

ALAMEDA, Aug. 8.—While Carlton Wall, the young millionaire, who was injured in an automobile smash-up on the county road at an early hour yesterday morning, rests on his couch at the Alameda Sanatorium in momntary fear that blood poisoning may set in and end his career, members of his family and of the party in the accident are telling different stories concerning the collision, and have done all in their power to hide the fact that Mrs. George Whittell, the divorced wife of a young millionaire, whose face is well known along the county road, and in the resorts about the bay cities, was a member of the party.

The other woman in the case, Mrs. Violet Kesner, who is now at the sanitorium here, gained considerable notoriety about five months ago when she took a dose of lysol. The incident occurred at the Hotel Del Monterrey in San Francisco, and it was stated that the woman had taken the poison through a mistake.

Last night Wall rested well, but from an authentic source it is learned that there is great fear that blood poison may set in, and the physicians are afraid that they will be unable to successfully battle with it, while the man is in such a weakened condition. Should blood poison, or any form of tetanus set in, Wall's end will be a matter of but a few hours.

This is what is feared now and all that medical science can do to ward off the dread disease is being done. A careful watch is being kept of the man and his temperature and pulse are taken every few moments. He still maintained a high fever, though during the night it showed some signs of abating.

Blood poisoning may set in, as it has been just learned that the injured man's left side was penetrated by a shaft of the milk wagon he struck. The shaft had a brass tip on the end, and it is this piece of metal which may be the cause of his death.

The woman who was injured, Mrs. Violet Kesner, continues to improve and will be about in another week. Her face was bruised and her scalp slightly wounded.

BOY IS BETTER.

The driver of the wagon struck by the automobile was J. A. Muller, the 19-year-old son of Jacob Muller, who lives on Baker avenue near the county road. The boy was thrown into the air by the collision and it was ten minutes before the party of autoists discovered

LETTERS OF 'BESS' CAUSED DIVORCE

"Kate," Too, Wrote Thomas J. Christian Notes of Burning Love, and Wife Got Them All.

Litters that passed between "Bess," "Kate" and Thomas J. Christian and which resulted in Nellie B. Christian obtaining an interlocutory decree of divorce from the husband, as published in THE TRIBUNE yesterday, are full of endearing terms, and caused Mrs. Christian much humiliation and mental anguish.

"Bess" wrote gushingly of her love, and said that from the world's standpoint they would be judged as having committed sin, but she felt that their love sanctified and connection between them.

The letters were admitted in evidence and were mailed for the most part in San Francisco. They were all addressed to Mr. Thomas Christian, general delivery, San Francisco. Here is one of them:

LONESOME.

"Darling—I may come over tomorrow. I am pretty sure I will. I want to see you so today, dear, so wait at the postoffice until 9 for me. I'm pretty sure of coming unless it rains. Hoping to see you tomorrow night, lovingly, BESS."

TRUSTS HIM.

Another, written on Monday, says:

"My sweetheart—Just a few lines this time, darling, and in a hurry at that. Now, about my umbrella; please send it as soon as possible, as it belongs to a friend. If you lost it I'll kill you—if you did—you for a new one. When did the girls get home. Gee, I hated to go and leave you all that night. I had to have a lot of trust in you to leave you with two such pretty girls. I know my boy and trust him as much as I love him, which is a lot more than you think, dear. Now, darling, I must close. With oceans of love, I am yours, BESS."

"OLD KID."

On December 23, 1905, "Bess" wrote like this:

"Darling Old Kid: Here I am flat on my back and have been for some time. The doctor says I may be in bed three [illegible] good bye, for I'll be gone a month and maybe move to San Jose.

"Lovingly, "BESS."

On Christmas day she addressed her "darling" in this manner.

"[illegible]G."

"Dec. 25, '05.

"My Darling: Xmas day. 'Peace on earth, good will toward all men.' Seeing a 'Christian' I'll write a line. I go home Sunday sure. How about San Jose? Salinas would be better, for you could catch a train there to the city at 7 in the evening and then it would be that much farther with me. Try Darling. With my dearest love. Hastily, "BESS."

Another postmarked Salinas and dated Feb. 15, '06, in which a "Nell" refers to Tom as brother and is rather uncomplimentary to a "sister," read as follows:

RIVALS.

"My Dear Bro. Tom: As my beautiful sister is going to write to you, I am I. Please write to her and tell her not to come. If you tell her not to she won't. And I know if you could see what a good single handed feeder she is you would not want her there if you was to pay for all she eats. She is so fat she has to turn sideways to get through any of the doors at home. Her face looks like a piece of dough with holes cut in it.

"Lovingly, "SISTER NELL."

WANTS A LOAN.

A few lines were added to this epistle by "Bess," in which she asks for a couple of dollars. "If it won't put you out," she writes, "send just a couple of dollars, dear. Oh, God; I wish I hadn't said it. But I must come to you in my troubles, for I have no one else. You won't think I am bold, will you, Tom. If I thought so I would rather die than ask such a thing. But you love me and I will trust you. All my heart's love.

"BESS."

PERFECT LOVE."

This one was posted at San Rafael:

"San Rafael, Nov. 6, 1905.

"LOVING BESS."

DISAPPOINTED.

Another, postmarked San Francisco, November 9, 1905, is as follows:

"Thursday.

"My Darling Tom: I was disappointed when you did not meet me at the postoffice, but I may be over this coming week on Tuesday or Wednesday. Oh, love, I miss you so. It seems I am so far away from you, darling, but you will be true, dear, I know. I trust you so. My life would be perfectly miserable if I did not. I'm going over to San Rafatel now, so goodbye, sweetheart, for now. With all my love, darling, I am

WINES' CASE IS SET FOR TRIAL

The first trial of Charles L. Wines, the former cashier of the West Oakland bank, who is accused by the president of the institution, Oscar Brelling, of misdemeanor embezzlement, is to be held before a jury on September 11 in department one of the Police Court.

Wines pleaded not guilty this morning to the six charges of misdemeanor embezzlement. He has retained Attorney Stanley Angwin to represent him. Angwin told Police Judge Smith this morning that the trial would consume about five or six days, as it will be necessary to go over the accounts of the bank.

INDICTS STANDARD

Chicago Grand Jury Finds Oil Octopus Takes Rebates.

CHICAGO, Aug. 8.—An indictment charging the Standard Oil company with receiving rebates in the form of non-payment of storage charges to certain railroad companies, was returned by the federal grand jury before Judge S. H. Bethea this afternoon. The indictment came as a surprise, inasmuch as the grand jury had just begun the investigation today. The Standard Oil company is the only defendant, no officials of the company and no railroad companies or officials being named.

The bond of the defendant was fixed by Judge Bethea at $25,000. This is the case investigated by the grand jury in Cleveland, Ohio, where it was found that the grand jury had no jurisdiction. The testimony taken there was transferred to Chicago, and the documents in evidence were identified by witnesses who testified in Cleveland.

It was on this testimony and evidence that today's indictment was returned so quickly.

The grand jury immediately resumed its session to take up the investigation of the charge that the Standard Oil company was given direct rebates by some railroad.

ROBBED BY TWO UNKNOWN MEN

Victor Johnson, living at 259 Washington street, San Francisco, has reported to the local police that about ten o'clock last night he was lured to a place between some freight cars on First street, near Jefferson street, and assaulted and robbed of $40 by two unknown men.

Johnson claims that he was in a saloon where he was asked to drink by [illegible]. He accepted the invitation and was then asked to take a walk. The men led him along First street between the freight cars to a dark spot, the two men are said to have jumped on Johnson and he became semi-unconscious. From his pockets $40 00 was taken.

Johnson could give no accurate description of the bold hold-up.

STRIKE OVER, NOW FOR CLEAN STREETS

The campaign of Mayor Mott for clean streets has been somewhat delayed by a strike among the employes of John Martin, who has the contract for the cleaning of the streets. The differences have now been settled, however, and the streets will be made to shine in accordance with the wishes of the Mayor. The men asked for $2.75 a day instead of $2.25.

than never, anyhow. There wasn't one word said when I got home. He was in bed fast asleep, and never woke up until next morning. Asked me what made me so late, and I said I missed the boat. I can't live this life much longer. I don't think you can think, dear, how hard it is loving you as I do, and living with someone else. I simply can't bear it much longer. In the first place, it isn't fair to him, for he is kind to me now, but I would rather he would be mean, for that's better, for then he don't want to kiss me or love in any way. But, darling, it's hard to utterly refuse to kiss him, and every time I do kiss him I seem to see your face between us. Tom, I love you so. I love you so. I would like to go away alone with you. Only to see me, darling. That's all I ask.

One signed "Kate" who evidently did not know of the existence of "Bess," was also admitted in evidence. Here it is:

God alone knows what I have suffered this past week. There is not the least bit of danger in you writing me—write soon. Goodby darling, and God bless and keep you for me. Your own loving sweetheart,

SMALL FIRE

There was a small blaze last night in the building which houses the transformers of the electric light station at First and Grove streets. For a time it was feared that the building would be razed, but the fire was extinguished after but a small amount of damage had been done. The damage amounted to about $100.

WALL IS BETTER

(Continued from Page 1.)

that a man had been on the wagon when the accident occurred. He is improving today, though he complains of pains in his chest and may be suffering slight internal injuries.

This is the first time the young man has driven the wagon in a number of weeks. He took the trip yesterday morning so that his younger brother, who usually drives, might have a vacation for a day. That the trip did not end fatally for him he considers providential.

TAKEN TO SALOON.

The three injured parties, Mrs. Kesner, Wall, and the driver of the milk wagon, were taken into the saloon of John Byrnes, opposite where the accident occurred.

Steps were immediately taken by members of the Wall party to hide any trace of the collision. The dead horse was removed from the road, and even the small splinters of the milk wagon were picked up. The automobile was dragged off the road and taken to a nearby barn.

DRIVER'S STORY.

The driver of the milk wagon, speaking of the accident this morning, said:

"I was coming along the road, driving in the middle of it, on my way to Elmhurst, and, saw the automobile approaching. I turned toward the right a little, and there was plenty of room for the machine to pass. I thought it was going to do so all right, when it suddenly dashed toward me and that is the last I remember until I came to in the saloon. I was not on the wrong side of the road, and it was no fault of mine that the accident happened. There were a number of men and women standing about when I woke up."

Jacob Mullet, the father of the boy, is inclined to blame the millionaire auto driver for the accident, and desires that he ebe recompensed for his loss. The rig and horse were valued at about $200, and should Wall refuse to pay this amount he will be sued for damages.

Mrs. Violet Kesner, the Oakland woman who was in the front seat with Wall, stated this morning that, accompanied by her sister and another woman whose name she refused to divulge, with Douglas McBride, had been to San Jose, and were on their return trip home when their machine broke. Then, in her own words:

"We met Wall, and when he saw our machine was broken he offered to take us home. We accepted the offer and left our machines at the side of the road. We were coming along nicely, when suddenly the accident occurred, and I do not remember anything more until I returned to consciousness.

"No, I cannot tell the name of the third woman in the party."

WHITTELL'S WIFE.

It has been learned, however, that the third woman was Mrs. George Whittell, the divorced wife of the gay young club man. Before her marriage she was Josephine Cunningham, an actress. She has had much trouble with the man who was her husband, and but lately was separated from him. She lives in this city in a palatial home on Hawthorne street.

It is now known, despite the efforts of the members of Wall's family to hide the names of the entire party, that it was composed of Mrs. Whittell, Mrs. Kesner and Mrs. C. A. Becker, a sister of Mrs. Kesner, and George Habernicht, Thomas Dennigan, Douglas McBride, Wall and his chauffeur, Harry Goodruff. Wall was driving the machine at the time of the accident.

With his characteristic way of thinking of the women first, the only word Wall articulated before he lapsed into senselessness were "Look out for Vi. I'm all right."

Wall then lapsed into a comatose condition and never recovered his senses until after being taken from the operating table.

It was shortly after Wall made this gallant statement that an automobile of Lincoln Upham came along and took the injured members of the party to the Alameda sanitarium.

The Office Boy Looking for Fleas

Last night Pa and I got into an argument about a quotation from the Bible. I said it was one way and he another, so we left it to Ma, but I guess Ma had a little coming to Pa, because she looked him over kind of scornful like and said: "Willie, what's your quotation." I said: "The wicked fleeth when no man pursueth." And Pa thought I was wrong, cause Pa said it was this way, The wicked flea goeth where no man pursueth. Ma said Pa was a brute and she hoped the fleas would bite him so he would look like a flour selve. Both my parents have got flint won their lunge, caused from chewing the rag, I guess. Well we fitted out a lot of boys here yesterday, Gee, but those college brand clothes do sell. We had to take out the window today, I mean the goods out of course, because we were running short of sizes. WRITTEN AS A JOKE.

The letter signed "May E. C." was written by Mrs. May E. Chambers of 4390 Telegraph avenue, this city. She admitted having written it last night, and stated that it was a joke. She gave the following explanation concerning it:

"I met Mr. Mahon about a month or six weeks ago. We were friendly, but our friendship was purely platonic. It is true that I wrote the letter found on him, but it was intended for a joke and really a collaboration between myself and another friend. I will not give the name of the friend who introduced me to Mr. Mahon, but will say I never met him on the date named in that letter. The last time I saw him was on Broadway in Oakland about two weeks ago, when he was with a tall young woman who was a decided blonde.

"I have not been in the habit of going out to dinner or of attending theaters with him. All I know about this tragedy is what has been told me tonight. I believe that it was his wife, from whom he had separated, who killed him. I do not know how long Mahon has been out on the coast, but I do know that he came from the East—from Denver—and I understand that he was seeking a divorce from his wife at the time he left Colorado. From the descriptions that I have heard it is possible that his wife had followed him to Oakland and was the woman that killed him and herself tonight. However, I am not positive about this and it is merely my theory."

ANOTHER LETTER.

A letter found in the corsage of the dead woman's gown reads:

"From E. R. Sanford, Coalinga, Oil Transportation Company, 1114 Kohl Building, August 1, 1906.

"Dear Dot: How are you? I'm awfully busy. Called up Mrs. Walker last night. She told me you were still in Camp Meeker; been waiting for you to call me up. Moved to 'Frisco last night. Be good.

"RALPH SANFORD.

'Congratulations to Mrs. Mitchell on the new addition to the family. How does your Mitch like it?"

Dr. Luella Cool Walker feels that she has been placed in an unenviable light through the tragedy, because of statements recently made regarding her relations with her divorced husband, in the Alameda county courts.

TELLS HER STORY.

In speaking of the tragedy last night and her knowledge of the affair, Mrs. Dr. Luella Cool Walker has this to say:

"I first became acquainted with the woman, whose name is Mrs. Lola Reed, at her sister's home at Camp Meeker, Sonoma county, about two weeks ago. Her sister's name is Mrs. Forest Mitchell. When I returned to Oakland, Mrs. Reed came back with me to visit her and spent the first four or five days on our return at my apartments at Thirteenth and Washington streets. She then went to Berkeley and stopped with friends, but I don't know their names.

"In the afternoon about 2 o'clock she came up to my apartments and we had a pleasant chat. She told me that she intended to go out to dinner with a Mr. Mahon at 6:30. I told her—I don't know why, it was merely a sudden impulse—not to go with the man, for I did not know the man and had never met him. She simply said that she would see me again in the evening. Then she went away and I did not see her until about half past eight o'clock at night, when she came again to my apartments and asked for my permission to use the telephone. She told me that Mahon was with her. I told her to go into the diningroom, where the telephone is located. I was talking to a friend of mine, Mrs. Galloway, who was with me in the front room of the apartments.

HEARD THE REPORTS.

"About five minutes later we heard the two reports, which we at first believed were from the street and were possibly the bursting of an automobile tire. A few minutes later, however, I smelled smoke in the hall and I went to the diningroom door, which was closed. I opened it and the room was dark. Turning on the light, I found the man lying on the couch with his hand grasping the receiver of the telephone and an awful bullet hole in his head. Lying on the floor at his feet was Mrs. Reed. She, too, had a bullet hole in her head and the fingers of her right hand touched the handle of a revolver. Her left hand was gloved, but the other was bared and the glove was lying at the side of her body. There was a big pool of blood on the floor between them. I closed the door and ran up to the police headquarters and told Chief Wilson and Captain Lynch what had happened. This is really all I know about the tragedy.

"Mrs. Reed, when I saw her in the afternoon, seemed to be in the best of spirits, and when she came in last night and asked permission to use the telephone, appeared to be in good mood."

OPINION OF POLICE.

The police, acting on the statement made by Markovich, believe that the woman led the man up to the dental parlors of Dr. Cool-Walker, and that, while he remained in the hallway, she, being familiar with the apartments, went straight to Dr. Walker, who was in the front room, and, after securing her permission to use the telephone, took the man into the dining room. The pair evidently spent fifteen or twenty minutes in earnest conversation and the climax of this talk in the darkened room was evidently reached after the woman and the man had wrangled over the letters found on the man. Both were jealous and the theory of the police is that the man, in endeavoring to justify himself, had volunteered to call up some person on the telephone. While waiting for the exchange to connect him, and while holding the receiver in his hand, the woman seated in an easy chair directly opposite to him, had evidently drawn the pistol and fired the shot, so close to his face that the powder marks of the flash blackened his cheek. Then she screamed, and turning the revolver on herself fired the shot which ended her life.

DEATH INSTANTANEOUS.

The body of Mrs. Reed was stretched on the floor when found, but the man was prostrate on the couch, with the receiver of the telephone in his hand. Death was instantaneous in both instances.

SHE MARRIED YOUNG.

Mrs. Lola Reed was married to Jack Reed, it is said, when she was but seventeen years of age. She has been separated from him for several years. Her maiden name was Avila. She was the daughter of John Avila of Fresno. She has a brother who was a division superintendent of the Southern Pacific company at that city. She is also, it is stated, a sister of Mrs. E. R. Sanford of Los Angeles, and of Mrs. E. F. Mitchell, whose husband is secretary to Congressman James Needham. Her parents are wealthy, owning large ranches in Fresno county and producing mines in Mexico.

HE WAS DIVORCED.

Mahon is the coast manager of the Ideal Yeast & Baking Company, and is but twenty-eight years of age. He had been residing in Berkeley. Mrs. Chambers states that Mahon secured a divorce from his wife eight months ago in Denver, and then came out here. The former Mrs. Mahon is on this coast at present, but her exact whereabouts are unknown.

SEPARATED TWICE.

Previous to the time of the fire and earthquake in San Francisco, Mrs. Reed resided there at the Hotel Olive. After the fire she induced her husband to come from the east. Their differences were smoothed over, and they lived together for a short time. A second time they separated, however, and Reed, it is said, has determined to return to the east.

HAD A WIFE.

The following letter was found among the dead man's effects today:

"Oakland, Cal.

"Anna: In accordance with advice of my attorney and not because of any desire on my part to intrude on your good nature, I take the liberty of addressing you to let you know that as soon as I establish residence in Reno, Nevada (I leave for there tonight), I will institute proceedings for a divorce on the ground of incompatibility of temper. Trusting that you have not grown weary waiting, and believing this way to be the quickest and most private way of disposing of the matter, as the decree goes into effect immediately upon being granted, and neither of us are acquainted there. Hoping you will see matters in this light and that you and the children are well and happy.

"I remain your most obedient and humble servant,

"JOHN S. MAHON."

(Over.)

'Gen Del very. Reno, Nev."

On the reverse was written in a smaller hand the following:

"Am sincerely sorry I struck George. I did it, not because I was angry with him for taking your part, merely to show him I did not play any favorites."

A fac-simile of the last sentence of the main letter, which contains Mahon's signature, is herewith published.

BOLTS FROM CONVENTION

Anti-Shea Faction in Teamsters Gathering Wants eLader to Resign.

CHICAGO, Aug. 8.—Disruption of the International Brotherhood of Teamsters was attempted today by a faction of the delegates to the convention which has been in progress in Chicago for three days. In an attempt to depose Cornelius P. Shea, the national president, Albert Young, who aspires to succeed Shea, led a bolt movement, and he and his followers, refusing to attend the regular convention, held a rump session in another hall. It was a move decided upon to defeat Shea in the election which is set for tomorrow.

The minority insists on Shea's resignation as a pre-requisite to their return to the fold.

President Shea adjourned the regular convention, and, calling his staff about him, held a council. Mr. Shea declared that the program of the convention providing for election tomorrow could be carried out to the letter. He will not resign

Inquisitive neighbor of mine has been firing questions at me again on the early morning car He now wants to know the difference between "prosperity" and "proclivity" I said, "Oh, fudge, forget it!" and he retorted without a moment's pause: "If you mean Lehnhardt's fudge, I can't forget it." The flavor of good fudge certainly clings to your memory. You do not need any "prosperity" to like the Lehnhardt fudge. It's great.

MINOR GOODALL'S SON A STOWAWAY

Arrives From Mexico After Trying Experience on the High Seas.

Captain Minor Goodall s sixteen year-old son Irving Goodall after an interesting experience on the high seas has arrived from Mexico a stowaway on the steamship Curacao

Captain Goodall is a capitalist ship-owner and prominent member of Oakland s most exclusive society. His son Irving reached home Saturday

He had deserted the ship Jabez Howes at Guaymas boarded the Curacao as she lay at anchor in the bay there and crawled into the sail locker He did not report his arrival on board until the Curacao was half way to Topolobampo homeward bound and it was only by the exertion of all his eloquence that he persuaded Captain Paulsen the Curacao s master not to send him back

Nothing was more natural than that young Goodall should have a taste for the sea His father was a sailorman so were his uncles and his grandfather

HEROIC CURE

If he could not go to sea with his father s consent he would run away

Captain Goodall recognized the symptoms and realized that the cure must be heroic

All right young man to sea you may go he told the boy and made arrangements to ship him before the mast on the American ship Jabez Howes Captain Clapp

The Jabez Howes with Irving Goodall on board left here on June 2 190 for Tacoma to load lumber for Cape Town She left Tacoma in August and December left Cape Towne for Newcastle, Australia She left Newcastle March 13 for Guaymas Mexico with a cargo of coal and June 15 arrived at the hottest corner of the Gulf of California and was still there when the Curacao arrived about two weeks ago

The day the Curacao reached Guaymas was one of the warmest of the season Likewise it was Captain Clapp s busy day Back and forth across the little harbor under the almost perpendicular sun he was rowed in one of the Jabez H wes heavy lifeboats Irving Goodall did all the rowing and the more he tugged at the heavy oars the hungrier he grew for the fatted calf and the more homesick for the cool shade of his beautiful home in Oakland

WOULD MAKE SURE

He had written to his father asking for money and permission to come home It was good news to Captain Goodall but he wanted to make certain of the cure and wrote back

You have made your bed and must lie on it for the present Finish the voyage

And then the Curacao pushed her white familiar nose around the corner and in a few minutes was at anchor not far from the Jabez Howes Irving s father for many years a member of the firm of Goodall Perkins & Co had virtually owned the Curacao and the sight of the vessel on which as a very little chap he had so often been petted by officers and men was too much for young Goodall He decided there and then to swallow the anchor which in sea parlance means quit the sea

Taking advantage of an extra long call Captain Clapp was making on board another American ship young Goodall tied his boat to a lighter and in another boat in company with some sick sailors being sent home on the Curacao reached the little white liner and speedily lost himself in the sail locker

He left the Curacao as soon as she touched the wharf on Saturday and hastened to Oakland He found the house locked up the family and servants being at Santa Barbara He has not reported since at the Pacific Coast Steamship Company s office but it is supposed that he is staying with friends until Captain Goodall returns

Taylor after feeding his team and buying provisions to last for days, set out for the West last night His wife is already improved in health

R. H. E ESPEY HAS RETURNED HOME

Assemblyman R H E Espey of the Fifty-first Assembly district after an absence of six months, hase returned to his home in Oakland Mr Espey formerly had a law office in San Francisco but he has now determined to open an office in Oakland and will probably locate on Broadway at once

Mr Espey is a candidate for the Republican nomination for assemblyman to succeed himself in the Fifty first district.

Edward's Trophy Prize of Annual Newport Regatta for Large Vessels.

NEWPORT, R. I., Aug. 8.—No effort was spared by the New York Yacht club to make the initial race for the King's cup today a success, and to fulfill the desires of King Edward, who presented the cup for a continuance of interest on this side of the water in the racing of large yachts. Many of the fastest boats in the club, outside of the ninety-foot sloops, were on the list this morning, as well as the schooner Amorita of the Boston yacht club, making an entry of six schooners and eleven yawls and sloops for the event. Under the conditions, the cup will forever be held by the New York Yacht club, to be sailed for annually, and each yacht winning it will have her name and taht of her owner inscribed upon the trophy. In addition, the winner receives a medal or other emblems The yachts are limited to those above fifty feet water line for sloops, and sixty, feet for schooners, and no time limit has been set

The conditions this morning, however, were not promising for a successful race from a spectacular standpoint A heavy thunder shower about sunrise was followed by a shift of the wind to the southwest, driving up mist and fog

COURT HAS RIGHT TO HEAR CASE

DENVER Aug 8—Justice George W Bailey of the State Supreme Court today refused the writ sought by the Denver City Tramway Company and the Denver Gas and Electric Company to stay proceedings in the franchise election contest in the Denver County Court Sheriff Alexander Nisbit thereupon peaceably took possession of the ballot boxes which the city election commission had refused to surrender last night on the order of County Judge Ben B Lindsey and the hearing was resumed in the County Court

The corporations had applied to the Supreme Court for a supersedeas, alleging that the County Court was without jurisdiction over the contest Judge Bailey decided that the charter convention officers of the court had the right to hear the election contests and that it was contrary to the practice of the Supreme Court to interfere in such a proceeding by writ of supersedeas

Try Hard to Induce Boys to Go

[illegible]

[illegible]—When the local high [illegible] this term it was seen [illegible] that the girl students outnumber [illegible] boys by two to one. In some of the classes there are but five boys and thirty girls. This scarcity of the young men has led to a systematic attempt on the part of the young ladies to inveigle more young men to school, but their efforts do not seem to be meeting with the success deserved.

There is a lack of athletic material at the school and it is doubtful if many of the league schedules will be participated in this year by the students.

The exact figures of the enrollment show that there are 119 boys and 287 girls at the school.

MUST ABATE NUISANCES

Emeryville Property Is Being Depreciated in Value by Offensive Odors.

BERKELEY, Aug. 8.—Fifty representative citizens of South Berkeley attended the Emeryville town board meeting a few days ago for the purpose of protesting against the bad odors that arise from the stock yards, Paraffine works, and other places within the jurisdiction of Emeryville. A petition was read with a long list of names from Emeryville and vicinity asking that the board of Emeryville to take immediate action against the Oakland Meat Company's fertilizing department. It was decided not to take action on that but to call them all and a committee, consisting of the entire town board, was appointed to investigate all the places which might cause bad odors.

The nuisance has caused the property in Emeryville to depreciate, and unless some immediate action is taken by the town board the property owners and residents will carry it to the higher authorities.

It is hoped the Emeryville officials will abate the nuisance without any further delay.

ASKED TO QUIT, HE CASTS ASPERSIONS AT COLLEGE

J. K. M'LEAN,
President of the Seminary, Who Asked Prof. Laughlin to Resign.

Instead of Students Being Deficient, Professor Was Below Standard, Say Defenders of Seminary.

BERKELEY, Aug. 8.—The extraordinary letter of resignation which Professor T. Cowdan Laughlin filed with President J. K. McLean yesterday has caused intense indignation at the Pacific Theological seminary, where Laughlin was an instructor. While the resignation on the part of Laughlin appeared to be voluntary, according to the statements of Professor Bade, of the seminary, Dr. Laughlin was asked by President McLean to sever his connection with the teaching staff of the school some six months ago. The high officials of the school say that the resignation was requested, and would have been received in a formal manner that would have called forth no public criticism.

But it seems that Professor Laughlin failed to carry out his part of the program by writing the letter of resignation, and the seminary authorities are angry at the apparent breach of faith on his part, so they declare.

Then, too, the "dig" that the former instructor of the school made about the lack of preparation of the pupils who entered the school is another thorn in the side of the faculty of the seminary. Professor Bade declares that many times students enter the schools without a knowledge of Greek, their deficiency in this regard being made up on the outside. He declares that this should be no reflection on the student, because he has never studied Greek.

Professor Bade, acting president of the seminary, asserts that the resignation of Professor Laughlin was requested more than six months ago. The interview which Professor Bade gave to a TRIBUNE reporter last night follows.

REQUESTED TO RESIGN.

"The resignation was requested six months ago. That is all that is necessary to explain the letter. He was not prepared to do the work that was placed upon him. Some implied reflections that he cast in his letter sufficiently explained that his resignation was asked for.

"It happens that men came to us from the University of California, as well as from Stanford and other high-grade institutions who are graduates of these institutions without having been required to study Greek. It is perfectly natural to suppose that some of these men will be poorly prepared for courses in Greek in the seminary. It is customary to require them to make up this deficiency in the university, or under private tutors, before they become candidates for the degree of bachelor of divinity. No student is graduated from this institution who does not possess a college degree before he comes.

"It is no reflection upon a student, that is upon his scholarship, to say that he does not know Greek when he enters."

S. S. S. THE STANDARD TONIC

The ingredients of which S. S. S. is composed, and the method of combining and preparing them so that they gently and pleasantly build up and strengthen every part of the body, make it the ideal tonic for a disordered condition of the system. Every one feels the need of a tonic sometimes. The system seems to get "out of gear," the appetite becomes fickle, the energies are depressed, sleep is not restful or refreshing, and the entire body has a nervous, worn-out feeling. When the system is in this depleted, run-down condition it must be aided by a tonic, and S. S. S. is recognized everywhere as the standard. Being made entirely of roots, herbs and barks selected for their gentle action as well as their invigorating effect on the system, it will not disagreeably affect any of the delicate members or tissues as do most of the so-called tonics on the market which contain potash or some other harmful mineral ingredient. These derange the stomach and digestion, unfavorably affect the bowels or otherwise damage the health. S. S. S. tones up the stomach and digestion, improves the appetite, produces refreshing sleep, rids the body of that tired, run-down feeling, and supplies tone and vigor to the entire system. It re-establishes the healthy circulation of the blood, acts more promptly and gives better and more lasting results than any other tonic, and because of its vegetable purity is an absolutely safe medicine for young or old. S. S. S. acts admirably in cases of dyspepsia, indigestion and other stomach troubles, and after using it that uncomfortable feeling of fullness, dizziness or drowsiness, after eating, are no longer felt. Not only is S. S. S. the greatest of all tonics but possesses purifying and alterative properties, and if there is a taint in the blood it will promptly remove every trace and restore perfect health. In selecting your tonic for this year do not experiment but get S. S. S., the recognized standard.

NO ONE WILL RIDE CYCLE

New Machine Looked on With Disfavor by Policemen of Alameda.

ALAMEDA, Aug. 8.—Now that the city trustees have ordered that a motor-cycle be purchased for the members of the police force to capture the autoists who are continually breaking the speed law, the question has arisen among the men on the force, who will be the man to ride the machine?

Not one today would state that he was willing to tackle the "devil-machine" and ride after the speed violaters on it. Two members stated that they would absolutely refuse to ride the machine, and declared that they would give up their positions first.

It looks as if the machine may be a white elephant on the hands of the police. The men refuse to agree to ride it and the cycle may cause the depletion of the force. Chief Conrad may be the only man to ride the machine when it arrives.

"MRS. CROCAN" IS A WRECK

Goes to Pieces on Alameda Beach After Twenty Years of Service.

ALAMEDA, Aug. 8.—The sloop Mrs. A. Grogan, after having done duty for twenty years at the Encinal yacht club, is now a wreck on the beach at the foot of Chestnut street.

Last night the boat broke her anchor chain and drifted to the beach. She pounded on the rocks and was soon a total wreck. This morning a number of the members of the club took all the furnishings from the boat and she is to be left as a playhouse for the children of the neighborhood.

"Mrs. Grogan" was one of the best known characters on the bay and in years gone by captured many prizes in the races held hereabouts.

He found conditions much improved in Los Angeles and the southern seaside resorts.

He reports the outlook for the renomination of Governor Pardee very good.

PROF. GIORGIA LEAVES SOON.

Within the last few years he has become a citizen of the United States, and intends making his home on the Atlantic side.

GERALDINE BONNER SAYS SHE LIKED EXPERIENCE

MISS GERALDINE BONNER,
The Authoress, Who Is Pleased with Her San Francisco Experience.

Went Through 'Quake and Learned Many Wonderful and Useful Things.

BERKELEY, Aug. 8.—Miss Geraldine Bonner, one of the best known novelists in America, is at present residing in Berkeley, where she intends to use the Bancroft library treasures in her work. She has just completed a book called "A Romance of Old San Francisco," and is at work on a new book which is to be of historical interest.

Miss Bonner has just returned from Carmel, where she rested for several weeks. She had gone through a great ordeal during the great fire in San Francisco and lost many valuable manuscripts and books.

Speaking of the ruins of San Francisco to a TRIBUNE reporter, Miss Bonner said:

"I think it is the most remarkable sight I have ever seen. It is a unique, tragic spectacle. It is as we may imagine a prehistoric city that had been destroyed by fire and water hundreds of years ago. It reminds me of an enormous extension of the Roman forum, except it is a different color. San Francisco was a reddish city. Being built so largely of brick the ruins have retained this reddish color. The most picturesque objects are the churches.

PICTURESQUE RUINS.

"Grace Church looks exactly like the ruins of a picturesque old abbey, such as one sees in England.

"From Russian Hill one views a most appalling spectacle as he looks over the burned city. A person would be crushed by the tragedy of it if he didn't see the new city springing up all over it. You can see the shanties of raw yellow board rising up between the walls blackened by fire. They are like hopes springing up amid desolation. In all that awful waste of ruin and chaos man is at work reconstructing, upbuilding, taking heart again.

SHE LIKED IT.

"I went through the earthquake and the whole business and it was an experience I would not have missed for the world. One learned more of human nature in those three days than he could in ten years of ordinary living, and twenty years of reading in books.

'You saw the real thing and the raw thing. Man with his conventions stripped off, with the good and bad in him revealed for all the world to see, and there was more good than there was bad. One saw that human nature was a pretty fine thing after all.

WRITERS.

"San Francisco already has given more brilliant writers to the country than any other town of its size in the country. In the earthquake and fire it passed through a tremendous experience, which will stimulate its artistic perception, deepen its sympathies and would give use to greater literary work than has ever been done before.

"California is one of the greatest fields in the United States for writers. It has its historical period, most picturesque, that of the Spanish days. It has the pioneers of '49, a tremendous period. Then it has the bonanza days, the most stimulating and wild time in the development of any American city, and now the modern San Francisco, the thing that has been burned. It is full of remarkable people and stories that only Balzac could have done justice to. Nobody has written a great San Francisco romance. Now that the city is gone and has become a piece of history somebody might do so. Let us hope they will."

MANY WANT PRETTY BABE

Advertised for Adoption, 233 Respond and Ask for Infant.

BERKELEY, Aug. 8.—Since the advertisement for someone to take a little baby girl appeared in a local paper about a week ago there have been just 233 applications for the sweet little girl of five months. But the girl is not destined to be raised by strangers, however, the case having been called to the attention of W. A. Gates, head of the local association of corrections. He has taken a deep interest in the matter and has insured a good home for the child while its parents are away in the north, where he has secured a position for them in the hop fields.

At the time that the advertisement appeared in the local paper there was considerable speculation as to the truth of it. The wording was simple yet pathetic. It follows:

WANTED—A sweet little girl of 5 months wants a good home; mother sick and not able to care for her. Call at 1845 Blake street, corner Grove.

Many thought that the whole affair was nothing more than a bit of romance emanating from the brain of the city editor of the local newspaper in which the ad appeared. But investigation proved only to well the truth in the human nature story that lay back of the four-line advertisement.

The parents of the child were visited and the truth of the story learned. It was found that the advertisement was only too true. The mother of the child was sick and unable to care for her. It was only as a last resort that the couple had agreed to give up their baby.

But the ad had its effect and people by the score sought out the home of the five-months-old girl and asked to be allowed to raise her. Had it not been for the kindly intervention of Mr. Gates some strange home would be housing the youngster.

CLUB MEETS.

BERKELEY, Aug. 8.—The First Ward Republican club had their initial meeting last night at the home of George Schmidt. The evening's talk was for the most part confined to statements about Berkeley's representation at the coming Republican convention. The club asserts that it will send a strong and determined delegation to the convention.

SALOON MAN FOUND GUILTY

Convicted of Selling Liquor Without License in Town of Berkeley.

BERKELEY, Aug. 8.—The people scored a great victory in the justice court of Robert Edgar yesterday when Walter Sweetman, the man accused of conducting a "speak easy," was convicted by a jury. Only eleven men judged the case for Sweetman, but the evidence was so strong that the jury was out but a few minutes before it returned with a verdict of guilty.

Attorney Redmond C. Staats conducted the case for the People, while Attorney Brewton Hayne defended Sweetman.

There was considerable interest taken in the testimony offered by Christian Walthour, a detective, who claimed that he had purchased liquor at the Chicago Hotel, Third and Delaware streets, West Berkeley, conducted by the defendant. Two flasks of whisky were offered in evidence, and these were identified by witness as bottles he had filled by Sweetman, one on the 15th of May and the other on the 12th of that month. The bottles were identified by the witness, one having a file mark on one part of the bottle and the other in another location. He claimed that he had been given fifty cents by Officer Lestrange on the evening of May 15th, that he had gone to the Chicago Hotel and purchased a drink of whisky, paying for this ten cents which was his own money; he then drew an empty flask from his pocket and asked to have the bottle filled. He claims that Sweetman complied with his request and that he paid him twenty-five cents therefor. He then returned to where Officer Lestrange and Detective Jamison were located. He turned over the bottle to Mr. Jamison and tendered the remaining twenty-five cents to Mr. Lestrange, but the latter refused to accept the money, urging the witness to keep it. "I considered it a gift from an old friend," said Walthour.

In the cross-examination counsel for defense brought out that the witness had made his home at the Chicago Hotel off and on for some time and that while he claimed to be a millwright by profession he had been engaged for some time in sweeping out saloons for a living, receiving in payment for his services a few drinks and some money.

It was stipulated by opposing counsel to try the cause with eleven jurors. They were Daniel Sieberg, H. H. Lockyer, C. Hirum, A. Crocker, C. Snyder, James Harris, D. Wenter, W. W. Henry, W. B. Knapp, T. Webster and J. E. Bigelow.

The Dogfall in Iowa.

The outcome of the Iowa Republican convention is to dogfall between the standpatters and the tariff revisionists, but it was a body blow to the Presidential aspirations of Secretary Shaw, who was hissed for five minutes in the convention, and was not even mentioned by name in the platform. A plank of the platform gives a perfunctory endorsement to the "members of the cabinet and Congressional representatives from Iowa," but of Secretary Shaw and his performances not a word. Even the name of Senator Allison was not mentioned. That honor was reserved alone for President Roosevelt and Governor Cummins.

While Cummins was permitted to control the convention, name the ticket, and select a majority of the State Committee, the standpatters were allowed to emasculate the tariff plank till anything could be read in or out of it. It opens with a stanch declaration in favor of protection, and then wanders off in platitudes and ambiguities, winding up with a stern demand for the policy advocated by Blaine, McKinley, and Roosevelt.

An anti-climax truly. Blaine and McKinley did not stand for the same tariff ideas, and little is known of President Roosevelt's tariff beliefs beyond the fact that he is, generally speaking, an ardent protectionist. He has been so busy with more pressing questions of policy that he has not differentiated his views regarding the tariff nor recommended to Congress any special course of treatment.

Macaulay said of the Parliamentary revolution in England that the Roundheads were the victors, but the Cavaliers wrote the history of the struggle. The campaign for tariff revision in Iowa seems to have terminated in the revisionists getting the offices and the party organization and the standpatters getting the platform. In other words, the Cummins faction got the plunder, while the Perkins-Allison-Shaw faction got the principle. As old Caspar said of the battle of Blenheim, "it was a glorious victory."

Having taken care of himself and his friends, Governor Cummins has left the tariff to be cared for by its friends.

Haviland and County Surveyorship.

Edward C. Prather, who has made an admirable record as County Surveyor, having announced that he would not be again a candidate for the office he holds, Perry A. Haviland, his chief deputy, will ask for the Republican nomination.

Without prejudice to the character and qualifications of any other aspirant, we have no hesitancy in saying Mr. Haviland ought to be nominated and elected. He has been a deputy in the County Surveyor's office for nearly eighteen years, and is far better acquainted with its details and the functions it has to discharge than any new man can be. He has a personal knowledge of all the important work done under the direction of the County Surveyor during the past twenty years. He is, moreover, a capable, courteous, and thoroughly trustworthy official, well versed in his profession, and entirely devoted to it.

If the county business were being transacted by a private individual or a corporation, there is not the slightest doubt that Mr. Haviland would succeed Mr. Prather. His succession would be dictated by ordinary business sagacity: it would be in pursuance of the policy which makes private enterprise successful and remunerative. What the voter would do in his individual capacity and in the conduct of his private business is a good rule for him to follow in public affairs. A private employer would promote Mr. Haviland to Mr. Prather's position because he is faithful, competent, upright, thoroughly informed as to his duties, and diligent in attending to matters committed to his charge.

In our opinion, public interests and party policy, to say nothing of justice to Mr. Haviland, dictate the nomination of Mr. Haviland by the Republican convention, and we hope it will be done.

Senator Dick of Ohio says it would be practically impossible for the next Congress to revise the tariff and decidedly bad political sense. Nevertheless, there is danger that failure to revise the tariff may result in a revision of the Republican party. There are not wanting evidences that a widespread revolt is likely to result if the standpat policy is continued too long. We have always believed the tariff should be revised from time to time to conform to altered conditions, and that the revising should be done by men in full sympathy with the policy of protection. By standing pat against any revision whatsoever there is danger of the tariff being revised by its enemies, as it was in 1894, and with equally calamitous results. Protectionism should not degenerate into Bourbonism.

Carl Browne, that eminent reformer, caricaturist and legpuller, has called himself together as the State Central Committee of the People's Party of California and nominated himself for Governor, with sundry other persons of the stamp of P. B. Gallagher and Charles P. Fox for running mates. It is a fine ticket for the foozle-witted. Had Colonel Bunk McPherson of Santa Cruz been named for State Treasurer the combination would have been ideal—not a rosette in the whole fifty-seven missing.

According to the artist of General Rubicon Otis's Times, the average Los Angeles voter is a cross between a catfish and a mud turtle. The arguments which the General addresses to them bear out the pictorial description.

The welching insurance companies appear to esteem a dollar in the hand as worth more than ten dollars' worth of future business. As for the moral side of the question, they have agreed to forget it.

No citizen should fail to vote for the school bonds next Saturday. It is a duty every voter owes the children and the city. Let none neglect it.

THE PEOPLE WITH PARDEE.

It may be that Governor Pardee will be defeated by the politicians for renomination, but if nominated (and we sincerely hope he will be) his election would be beyond a question of doubt. The people admire Governor Pardee, endorse his administration and are with him.—St. Helena Star.

TWO CITIES DESTROYED BY FIRE.

Simultaneous Disappearance of San Francisco and Oakland.

BY JOHN P. IRISH.

Those who lived through the tragedy of San Francisco need no description of it. Those who saw it not, who did not hear the great explosions of dynamite nor see them followed by the blush that suffused the cloud of smoke over the doomed city, will never realize what it was. The fine writing used in its description is mostly pathos and bad taste. Seen and heard now in the perspective of many days, one remembers only the remarkable courage and calmness of the people. Many fetid imaginations have been worked in telling about the conduct of the Chinese. The fact is they neither implored nor imprecated the gods, but met their fate like philosophers. Many long in service in private families were more than philosophers. They saved the women, children and property of their employers, showed great initiative and rendered service not to be forgotten. The fire respected no race nor condition. The squalid districts "south of the slot," a term descriptive of the region south of Market street and its cable slot, the irridescent Latin quarter, which dropped like a drapery from the summit of Telegraph Hill, the Asiatic center of the city in Chinatown, and the lordly architecture and great mansions of Nob Hill, all went down before that scythe of fire which sharpened on the harvest it gathered in. The heavy machines, great steam hammers and cranes of the foundries and factories, were destroyed as easily as the laces and lingerie of the uptown stores. The railroad signs set hundreds of miles away, advising the coming traveller to trade in those great houses, read now like epitaphs. The houses are gone and the fine merchandise. The dear and delightful city, with its Christian, Buddhist, Shinto, Mahometan and Vedantic temples, its sins, sorrows and smiles, is no more. Where so lately a man could get his repast or his religion in every style, crumbling walls, and ruined streets spread to the sky line.

True, far away from the former center of opulent commerce, there is trade. The new retail busines is located in the great mansions that were spared, far out toward the sea. The income of their owners comes in no more. What produced it is part of that pall of mortar and brick dust that covers the dead city. They were glad to take rent on the houses that they could no longer support. Entering one of these, the lady shopper makes known her wants to the subdued floor walker, who directs her to the kitchen, the dining-room, the parlor, or billiard room, to find it. In all history no military siege nor other conflagration has so utterly effaced a city. Let us not dream that those who knew and loved it will ever see it again. There will be a resurrection, but not of that which died in the fire. There will be the temples of many gods, and places where men eat and drink, some time, and great palaces of trade will be, and great factories will roar and rattle, but our dead city will still sleep under the gray ashes.

But another city was destroyed and disappeared, never to come again. When the fate of San Francisco was read, written upon that pillar of cloud on that awful Wednesday, Oakland saw it, unaware that she was reading her own epitaph. She was a city sound in wind and limb, her gas and water pipes and nervous system of electric wires all in condition. But that city had always been a suburb, with all of the advantages and disadvantages of that condition. It had no slums, no redlight section, and had not yet eaten the forbidden fruit. When its people wished to be wicked they crossed to San Francisco, and on the return trip their sins were thrown overboard and drowned in the bay opposite Goat Island light and they came ashore absolved and clad in the garments of rectitude.

But on that awful Wednesday Oakland saw her duty and did it well. By the mid-afternoon the relief committee was organized, churches and public buildings were opened, tents were pitched, kitchens were impressed or improvised, and then came the rush of more than two hundred thousand refugees, that day and the three days following. They were met by committees, assorted into families, distributed, sheltered and fed, all out of the contributions and local resources of Oakland, for days, until help came from the outside. No Oakland relief worker charged for his service, and no refugee lacked shelter or food. It was a stupendous work. Oakland was the center of relief, the city of refuge. The Mayor and city officers toiled day and night. Governor Pardee properly made his headquarters in the City Hall, and stood by his duty in the focus of distress and of the energy required for its relief. There he slept, what little time he could, and thence the strong arm of the State reached out to impose authority, protect the needy and succor the pilgrims of calamity.

But even then Oakland did not appreciate what it all meant. The immediate work was too pressing. We will always remember with pride that from the landing of the first boat load of hungry, thirsty and shelterless refugees to the distribution of the last ration when it was all over, there was not a single complaint by a refugee of lack of clothing, comfort or food. All needs were supplied.

Then Oakland took a nap and woke to see a new and strange city. The people who came as refugees and stayed as residents had suddenly transformed the town. From a population of 80,000, it had in a few days grown to 225,000. The like had not happened before since the Peloponnesian war forced the country population into Athens and compelled occupation of the ground condemned by the Delphic Oracle to eternal desolation. Business must go on, and it organized in Oakland. The Chinese merchants came. They pay one-third of the revenues into the San Francisco custom-house, which means that they control one-third of the importing trade, and that means their control of as much or more export trade. All this came to Oakland, and tolerance and wisdom will keep it here. We look for old San Francisco under the ashes, and in the dun and brown ruins. We look for old Oakland in the new signs, the crowded banks, the overrun hotels, the new factories, warehouses, and energetic thousands who throng the streets and buy and sell and bargain and prosper, only to find that the Oakland we knew was also destroyed by the fire. The new city is emerged from the old like a butterfly from the grub. Our wharves are crowded, our docks are piled high with merchandise. Business is pushing into what were residence districts, and all that steam and energy can do is at work to increase deep water facilities that more ships and bigger may come where ship and car can meet and commerce be distributed without crossing a dead line and paying toll.

There will be difficulties to overcome. The city government cut out for a town of 80,000 has upon it the administration of a city of 225,000, with an insufficient budget for the larger duty. But patience and enterprise will find a way to expand to the greater responsibility. We will need more school facility, more churches, more police, a larger fire department, more parks, bi-secting boulevards, great hotels, and we will have more slums and sin after the manner of great cities. It is destiny and Oakland cannot turn back. The City of Refuge became a metropolis in a week, and we are strangers in our own land, for old Oakland and old San Francisco are gone, to be seen no more.

LACKEY-CHAMBERLAIN.

The marriage last evening of Miss Emelie Chamberlain and Dr Howard J Lackey was one of the notable events of the month Rev Edgar F Gee read the marriage service in the presence of over two hundred guests The church was decorated with blossoms and foliage carrying out a color scheme of pink and green The archways were outlined in an arrangement of pink geranium and huckleberry finished with graceful baskets of fern Across the front of the church was the same decoration and on the altar were large brass vases of amaryllis.

Wallace Sabin, formerly of St Luke's church of San Francisco, presided at the organ Promptly at 8 o'clock the bridal party entered to the strains of the wedding march Mrs Felix B Galindo was her sister's only attendant Her gown was an exquisite combination of cream silk poplin and duchess lace A shower of maidenhair fern completed an effective costume

The bride wore a gown fashioned from a fine hand-embroidered crepe shawl which had been handed down as an heirloom from her grandmother, was beautiful Silk Cluny lace formed the deep transparent yoke and trimmings of the heavy fringe added a pretty touch The long bridal veil caught with its cluster of orange blossoms, fell to the hem of the skirt and a shower of bride roses was carried on her arm

The four brothers of the bride—Henry Chamberlain Lloyd Chamberlain, Frank Chamberlain and Ollie Chamberlain—acted as ushers and H F Brey a brother-in-law of Dr Lackey, supported him

JANITRESSES STRIKE IN AID OF HUSBANDS

★ CHICAGO, Aug. 8.—The first family strike to be recorded in the labor movement in Chicago was ordered yesterday when 260 janitresses voted to go to the aid of their husbands to win an increase in wages demanded by window washers in large buildings down town.

Mrs Felicia Prendergast turned the tide of sentiment in the janitress' meeting Several speakers pointed out that the wives of the strikers ought to stay at work and earn a living for their husbands while the latter were out of work.

"That is a false doctrine," objected Mrs. Prendergast. "Women are supposed to be helpmates of their husbands, but they are not their slaves. Moreover, I believe we can assist them better by refusing to scrub floors and stairways in the big office blocks."

The vote was practically unanimous in favor of laying down mops and brooms in twenty skyscrapers tomorrow morning ★

THREATEN STRIKE IN POWDER WORKS

BERKELEY, Aug 8—Six employes of the Vigorit powder works of West Berkeley walked out yesterday as the result of the company refusing to reinstate one of the men who presented a petition asking for a raise of twenty-five cents a day in the rate of wages that the company was paying

The men of the powder works say that if the increase is not allowed the entire force of the establishment will walk out

HARMONY RULES BETWEEN TRUSTEES AND MERCHANTS

Differences Explained, Apologies Interchanged--Exchange Endorses School Bond Issue.

★ The Merchants' Exchange held a meeting last night. ★
★ Members of the city board of education were present. ★
★ Dissension and misunderstanding ended in harmony. ★
★ The bond issue for school purposes was thoroughly discussed. ★
★ On motion of Director Downey of the Merchants' Exchange, the ★
★ bond issue was endorsed. ★
★ At the suggestion of Director Rogers of the board of education, ★
★ a committee of three members of the Merchants' Exchange will be ★
★ appointed next Tuesday night to act as an advisory committee to the ★
★ board of education during the course of construction of new school ★
★ buildings and the rebuilding and strengthening of the old ones. ★

Such were the results of the meeting of the Merchants' Exchange, at which meeting the members of the city board of education were present. The board was represented by President Pratt, Superintendent of Schools McClymonds and Directors Crandall and Rogers. At a former meeting of the Merchants' Exchange charges of graft in regard to the erection of school buildings under a former bond issue were freely made. It was stated that Superintendent McClymonds was no more fit to oversee the work than was a boy fourteen years of age. It was because of this that the joint meeting was held so that some understanding regarding the present proposed bond issue could be arrived at.

PRATT TAKES FLOOR.

President Pratt of the board of education was the first to take the floor after the meeting was called to order by President Williams of the exchange.

"Of what do I stand accused Mr President?" said President Pratt.

"We should like to hear something of these school houses," replied Chairman Williams of the exchange.

BUILDINGS DAMAGED.

"Well," continued President Pratt, "I am aware that some of our friends here have been interesting themselves in regard to school houses. We know now more about these structures than we did four months ago. We all are anxious to give the city of Oakland the best of schools. We had our new buildings about completed when the shock came. The Grant building was damaged to the extent of about $2000. Others sustained greater damage. The Franklin school was damaged to the extent of $12,000, and presents a magnificent ruin. This school building, so far as the brick work was concerned, had been passed upon by the architect as meeting the requirements.

ASSUMES RESPONSIBILITY.

"I want to say right here, gentlemen, I wish to assume my full share of the responsibility of paying for these buildings. I don't believe in making the contractor responsible. None of the members of the board of education want the contractors held for something for which they are not responsible. If you, gentlemen, in your judgment, think such opinions should not be approved, you can make criticisms in public, in private, in meeting or out, and I will not take offense, as you have as much right to your opinion as I to mine.

NEEDS MORE MONEY.

"If the City of Oakland does not see fit to vote the bonds, why, gentlemen, the board of education can stand it. We cannot do as we wish to do without more money. The board has not acted of its own sweet will, but we have counseled with representative men and it was the result of consultation that compelled the board to change their plans and ask for bonds.

WANTED TO SEE GRAFTERS.

"And now, gentlemen, it is up to you. We employed men of competence and our bricks and mortar should reach certain requirements. And what more could we do. We did not hire you, personally, gentlemen, but we hired men whom we supposed would live up to requirements.

"I would like to see the color of the alleged grafter's hair. Are Childs and Arlett the grafters? Are the inspectors grafters or did they all stand in together? And are we to blame if such was the case? Are you accusing Charley Redington of graft? He handles the finances and is honest as the day is long."

PRATT IS QUESTIONED.

"Is it not a fact that the appropriation for buying lands for schools was $300,000?" asked Director Crowley of the Exchange.

"About that much," replied President Pratt.

"One hundred and sixty thousand dollars was spent," said Superintendent McClymonds, "which left $40,000. We have on hand now about $450,000 all told."

NO PREMIUM PAID.

"Was there any premium paid on those bonds?" continued Director the city. We will spend the $40,000.

"No," replied McClymonds. "They were sold at par by order of the supervisors."

"We are paying interest on a large amount of money," said Mrs. Crowley. "The bonds should be properly advertised," he continued.

"What do you mean by proper advertising?" questioned President Pratt. "You could have had this information from us. You imply, Mr. Crowley, that the bonds were not properly advertised. Why do you throw dust?"

"I will now ask," said Crowley, "why we don't get a premium on bonds, and were they properly advertised?"

"They were advertised and properly so," said Pratt. "They brought no premium because the people that bought them did not bid up on them. We had nothing to do with the selling of the bonds. It was the law that said that the Board of Supervisors should sell the bonds."

SUPERVISORS SOLD BONDS.

Director Rogers stated that the legal authority for the selling of the bonds rested with the Board of Supervisors. "The money cannot all be expended at once," he said. "The interest is the same as if paid on the first day or the last year."

SOLD AT PAR.

"These bonds have to be sold at par," said Superintendent McClymonds. "The best scheme from a standpoint of economy is to issue the bonds and let builders bid on them. We should all stand together to see how this can be remedied. Let us talk as man to man. Let us make you the Board of Education for the present and see what you would do to rebuild and reconstruct the schools.

NO INTENTION TO ROB CITY.

"There is no intention of any member of the Board of Education to rob the city. We will spend the $40,000 surplus in school work. We must restore these buildings, and it will take money to do it. This community does not want to build schoolhouses that will fall on our children. No one ever expected the quake. The buildings are put up just as they are put up in the East. We know now that steel frames should be put in the buildings, but it will take money to do that.

"There is not a dollar that we cannot account for and our books are open."

CEMENT WAS SCARCE.

Craigie Sharp contended that the school buildings were not properly constructed, as the bricks were not "tied" and that the mortar was of inferior quality.

"There is hardly any cement in the mortar and but little lime," he said. "There is one thing I want to know and that is why was the schoolhouse in East Oakland not erected when bonds were voted two years ago?"

WERE MANY DELAYS.

"There have been delays that could not be prevented," replied Superintendent McClymonds. "What motive could we have in delaying the work. We have been trying the best we know how. The delays are not as irritating to my friend Sharp as they were to the members of the Board of Education. We were put back because of delay in getting iron. All this talk will not build our schoolhouses, however. I thought we were here to discuss the bond issue."

NO BLAME FOR BOARD.

"If the contracts were properly drawn," continued Sharp, 'the contractors would have been obliged to pay a penalty for every day they were behind. I have not blamed the board of education, but there is something radically wrong with the school buildings, and that is what I am trying to find out. Dr. Pratt says competent men were hired to see that the work was properly done. Just one look at this mortar goes to show that something was wrong."

STOOD THE SHOCK.

"The Grant street, Grove street and Franklin street schools stood the shock," said Director Rogers. "These schools had been completed, and it was only the unfinished, green buildings that were so badly damaged."

"We have men who will swear that the work was well done," stated Superintendent McClymonds.

"And there are others who will swear that it was not well done," replied Sharp.

BONDS SHOULD CARRY.

"After all that has been said and done," stated Craigie Sharp, "I will say that these bonds should be carried and the proposed work done, but there should be a careful watch kept on the building work."

Sharp admitted under questioning by President Pratt that he had not examined any buildings outside of the school buildings. President Pratt said that many buildings suffered, but that that was not evidence that the buildings were "bunco" buildings.

Director Rogers further addressed the meeting and said that the board of Education was most anxious to rebuild and strengthen the school buildings to the satisfaction of the people of Oakland.

WANTED SHARP TO BID.

"I am sorry that Mr. Sharp does not bid on some of these buildings, if he understands the work so well," said School Director Crandall. "There are many things that we have to contend with."

ENDORSE BONDS.

At this juncture of the proceedings Director J. C. Downey of the Exchange moved that the Merchants' Exchange endorse the bond issue. This was carried without a dissenting vote, and Downey then moved that a committee of three of the Exchange be appointed to investigate the school buildings. On suggestion of Director Rogers of the Board of Education, however, the committee of three will not be appointed until next Tuesday night, and the committee, when appointed, will act as advisory committee to the Board of Education during the course of construction and strengthening of the school buildings.

THANKS EXCHANGE.

After these motion had been made and carried, President Pratt spoke again as follows:

"The Board of Education has no motive other than to erect buildings that all of us will be proud of. If any of you see anything wrong, let us know during the time of construction of the buildings and not after, and we will be glad to rectify it. We members of the Board of Education came gladly to this meeting tonight and we thank you for your courtesy in inviting us. We hope we have hurt nobody's feelings. We did not intend to."

A NEW SCANDAL.

After the members of the Board of Education had departed from the Exchange rooms Craigie Sharp, who was the first to have called attention to the school matters which resulted in charges of graft being made, brought up another matter to which some scandal may be attached and which will result in further investigation on the part of the Merchants' Exchange. Sharp stated that a man who had been seriously injured just across the estuary could get no ambulance from the Oakland side to take him to the hospital. Sharp said:

"This man was badly injured. The hospital would not get him nor would the police patrol get him, for the reason that he was in Alameda, but under the conditions, as he was just across the estuary, he should have been brought to an Oakland institution. It is an outrage that he was neglected. If we have such officials in Oakland, I say let Oakland rot."

A FURTHER REPORT.

President Williams of the Exchange stopped further discussion of the matter by notifying Secretary Wilber Walker to look into the affair and make a further report at the next meeting to be held Tuesday night.

MOTHERS TO MEET.

BERKELEY, Aug. 8.—The South Berkeley Mothers' club will meet this afternoon at 3 o'clock in the Lincoln school building on Alcatraz avenue, South Berkeley.

All women interested in the welfare of the children of the community are urgently requested to be present, whether or not they have children in school. There are no initiation fees and no dues. Anyone interested in the club's work may become a member by signing the constitution. Mrs. Hubert M. Rowell is the president of the club, and Mrs. J. Koughan is secretary.

BIG INCREASE.

BERKELEY, Aug. 8.—The schools in Berkeley show a very great increase in the number of pupils this year over those of last year. Already there are more than five hundred more pupils this year, and they are still handing in their applications for admittance. There are enrolled in the grammar schools 3825 pupils as against 3402 for last year. The Whittier school alone has the largest number of pupils, 835 enrolling this year compared to 608 the number of last year. This increase is partially due to the fact that the Allston school was done away with for the year.

His friend, Mr. Crawford Ferris, 1615 Ellis street, says: "Troubled with gastritis for 16 years. I have taken all sorts of medicine without any permanent effect. I must say, after I saw how it cured my friend, John Delaney, I commenced taking it about 9 months ago, and I am now entirely cured of a stomach trouble that almost killed me."

The Angels went down to defeat yesterday. Spencer landed on the first ball Bergeman pitched at Idora Park, and by the time Bernard had returned the ball to the diamond Spencer was roosting on third. He then scored on Wheeler's out to left. Kid Mohler tore off a single to center. He gained second on Hildebrand's out and reached home on Irwin's three-bagger to center. Williams worked his strike-out specialty and that stopped it.

Hitt grew liberal in the fifth and passed Mangerina and McClelland. They tallied on Bergeman's hit to Sears. Some juggling in the field allowed the twirler to register and the Angels were in the lead.

Mangerina scored again in the seventh on some more of Roy Hitt's liberality and an opportune hit or two. The Seals went to the front the next time up when Hitt and Spencer made the circuit. They put the game on ice in the eighth by working Irwin and Sears around. San Francisco beat Los Angeles by a score of 7 to 4. The score

LOCALS PLAY POORLY.

SEATTLE, Wash., Aug. 8.—The Oakland men played like a lot of bushers yesterday, and Johnnie Hopkins was defeated, when on his pitching he should have had a shut-out. Van Haltren dropped two fly balls, Smith dropped two more and Haley made three errors right in a run. It was an awful exhibition, for three times Seattle players were caught between the bases and escaped. Jones pitched pretty good ball, but when he was hit, it was for hard drives. Score:

PRESS PLANS FOR GOLDFIELD FIGHT

GOLDFIELD, Nev., Aug. 8.—Joe Gans reached here at 9:15 o'clock last evening. He will probably train at the brewery in the south end of town near the Malapai. It is likely that the prudent Billy Nolan will quarter his man Nelson at the Miners' Exchange, a vaudeville house, where he will exhibit his various working-out stunts at so much a head. This is the plan offered by the proprietor of the place, who offers to practically bear the training expenses for 25 per cent of the receipts from the curious. This arrangement is under consideration by Nolan, who has wired an acceptance with a string to it; dimensions of cord unknown as yet.

Tex Rickard hesitated about transferring money by means of a certified check to the San Francisco Call, feeling that a Goldfield bank was just as good as any newspaper. Acting on advice of others, however, to avoid any chance for hair splitting, the check has been mailed, to be guaranteed by the Crocker-Woolworth Bank of San Francisco.

GANS' QUARTERS.

Quarters have been provided for Gans, and he will be taken care of by the club until such time as he settles down to training. Both fighters will have to pick up their work gradually on account of the rarefied air of the camp, and it will be slow and easy at first or there will be bellows to mend.

Gans, upon his arrival, said: "I have received a typical mining camp ovation, and believe I will get a square deal. The club managers have agreed to post money in a manner satisfactory to me, and the people are willing to have the fight. I concede Nolan everything, so there will be no hitch. I would like to fight before the San Francisco public but know I shall be well treated here."

BIG ARENA PLANNED.

RENO, Aug. 8.—Tex Rickard, promoter of the Gans-Nelson fight, arrived in Reno last night and will be met here by Billy Nolan today. They will leave together for Goldfield on the Tonopah express. Gans preceded them and on the arrival of Nelson's manager articles of agreement will be signed.

A train of lumber left Reno today for Goldfield and an arena will be built capable of seating 20,000 people. Already a request has been received for a reservation of 500 seats for the society ladies of Goldfield. The prices of these seats will be $20, $15 and $5.

Tex Rickard said today: "I wired Billy Nolan in Salt Lake City a few days ago that I would offer a purse for Nelson and Gans. At that time I did not have the money, but within one hour after receiving his reply the full amount was subscribed by Goldfield business men. I told the fighters that I represented the Goldfield Athletic Club. No such club was formed at that time, but since my arrival in Reno I have telegraphed representatives in Goldfield to form a club and to elect me president and treasurer. I hope this will fill the requirements. I do not anticipate any disagreement when Billy Nolan and Gans meet with me in Goldfield to sign the articles of agreement."

NEWSY NOTES FOR DIAMOND FANS

Why don't some of the rummies that want to jump the Coast league go up to the Northwest league, where there is a nice little four-club bunch? These are Butte, Spokane, Tacoma and Gray's Harbor. The other day Gray's Harbor played in Spokane and the gate receipts were $14. To offset this sum the umpire fined the Gray's Harbor players $15. Butte and Gray's Harbor are the only towns that are paying expenses and all the fans are howling that the quality of ball is too cheap. Goodwin is pitching for Gray's Harbor and Toren for Spokane.

Wiggs, who once pitched for Dugdale's Seattle team, several years ago, has jumped to Toledo team and gone to the outlaws. He never was much anyway and Toledo should be happy.

Doc Moskiman, who was farmed out by Pittsburg to the Jersey City team in the Eastern League, is pitching good ball and may be taken back by Pittsburg. Keefe, who was farmed by New York to Montreal, may also be taken back to fill the place of Noodles Hahn, who is about all in.

It must certainly make all the ordinary baseball fans tired to think of Catcher Charley Graham playing in the Sacramento State League team when he could do so much to make the Fresno team amount to something. It is about time someone braced that bunch up.

Bob Unglaub, who is well known to local fans and ball players, is not only hitting the ball hard and often in the outlaw league, but is said to be one of the best first basemen in the country. There are plenty of men with the same reputation, however.

The St. Paul club has sold Pitcher Buchanan to the Memphis team. This is the one that was once such a crack pitcher for the Oakland Club.

There is a strong friendship between these men and Jake, the starter, says that Jake the Eagle Eye, can spank the horses away from the post for him as long as he is able to wag a whip.

This is where Jake's batting eye will come in handy.

"Beckley!" says Holtman, from his perch on the rail.

"I'm listening!" says the Eagle Eye.

"You get in behind that Number Seven!" says Holtman. "That's that sour old mare. She needs a good wailoping just at the start. Get in behind and sting her once when I say "Come on!"

And Jake certainly can sting them. His batting average with a long whip is at least 997, and he never misses connections. Sometimes he hits a jockey on the leg and then there is trouble.

But don't worry about Jake. He may be too old to play baseball but he is a great success at the post.

SPAULDINGS IN TWO WINNING GAMES

The Spaulding baseball team won two games Sunday, defeating the "City Fronts" of San Francisco by a score of 9 to 0, and the New Sunsets, a Japanese team, by a score of 27 to 5.

The Spauldings were too good at the bat for the Japs, although their pitcher had plenty of speed and curves. Home runs and three base hits were the features of the game. Leighon, the pitcher for the Spauldings, did fine twirling and he received good support.

The Spauldings challenge any team in Alameda county averaging seventeen years of age. Address all challenges to Weimar Leighon, 882 Jefferson street, Oakland, Cal.

THOMAS DOES WELL IN THE EAST

Joe Thomas the California welter, is making good in the east. He has won a couple of good fights and already is in demand in the various centers where men can fight over six rounds. Harry Foley is with him as trainer and adviser.

Eddie Hanlon is authority for the statement that Foley is the worst adviser in the whole world. He says that Harry allowed him to ruin his chances in an important fight by filling up on beefsteak, fried potatoes and Swiss cheese just before going into the ring.

PARDEE CLUB.

BERKELEY, Aug. 8.—Friends of Governor George C. Pardee will meet in Woodmen's hall tomorrow night for the purpose of organizing a Pardee club.

DE COURSEY TO MEET RITCHIE AGAIN

SAN DIEGO, Aug. 8.—The articles of agreement signed between Billy DeCoursey and Johnnie Ritchie call for a forty-five round contest on the evening of September 14, before the National Athletic club. The winner is to take the entire gate receipts and a side bet of $1000. The two are to weight in at 3 o'clock at 123 pounds. There is considerable feeling between the two fighters. They have met twice before, each time Ritchie being the winner. Both men have met and defeated some good men in their class and both deny the assertion that they are getting old. Local sports believe it will be a good contest. Charles Eyton or De Witt Van Court will referee.

Grandfather's Cure for Constipation

GREAT medicine,—the Sawbuck.

Two hours a day sawing wood will keep anyone's Bowels regular.

No need of pills, Cathartics, Castor Oil nor "Physic," if you'll only work the Sawbuck regularly.

Exercise is Nature's Cure for Constipation and,—Ten-Mile walk will do, if you haven't got a wood pile.

* * *

But, if you will take your Exercise in an Easy Chair, there's only one way to do that, and make a Success of it.

Because,—there's only one kind of Artificial Exercise for the Bowels and its name is "CASCARETS."

Cascarets are the only means to exercise the Bowel Muscles, without work.

They don't Purge, Gripe, nor "upset your Stomach," because they don't act like Cathartics.

They don't flush out your Bowels and Intestines with a costly waste of Digestive Juice, as Salts, Castor Oil, Calomel, Jalap, or Aperient Waters, always do.

No,—Cascarets strengthen and stimulate the Bowel Muscles instead.

These are the Muscles that line the Food passages and that tighten up when Food touches them, thus driving that Food on to its finish.

They are the Muscles that turn Food into Strength through Nutrition.

* * *

Well,—a Cascaret acts on your Bowel Muscles as if you had just Sawed a cord of wood, or walked ten miles.

That's why Cascarets are safe to take continuously in health; and out of health.

Because they move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.

They thus work all the Nutrition out of it before it decays.

The thin, flat, Ten Cent box is made to fit your Vest Pocket, or "My Lady's" Purse.

Carry it constantly with you and take a Cascaret whenever you suspect you need one.

Thus you will ward off Appendicitis Constipation, Indigestion, — and other things besides.

KAUFMANN KNOCKS OUT BRADLEY

BOSTON, Aug. 8.—Al Kaufmann, the California heavyweight boxer, knocked out Fred Bradley of Roxbury in the fifth round of their scheduled fifteen-round bout last night at the Lincoln club, Chelsea. The Boston sporting fraternity, while not extravagant in their praise of the Pacific coast fighter, declare that he was at all times the master of the man who faced him.

Bradley had the benefit of the experience of Jack Johnson, and in many ways indicated that with more knowledge of the game, backed by his rugged physique, he will show up later. Kaufmann at the opening of the battle tried out Bradley, who rushed and was nervous, leaving bad openings. Neither scored any advantage in this round. In the second Kaufmann showed he had a wicked left hand, setting Bradley's head back several times. Bradley's blows went wild, though he blocked several wicked swings of the westerner, but at the close of the round showed he feared his opponent.

The third round was fast. The men fought all over the ring, the advantage being decidedly in favor of Kaufmann when they started in swapping punches. The fourth round opened with Bradley the aggressor, and Kaufmann had to back away. Clinches were frequent on breakaways. Kaufmann started in to finish Bradley quickly and had him holding on when the bell rang. From the tap of the gong in the fifth round Kaufmann went after Bradley, who was powerless in his hands, being driven to his own corner under heavy punches. Hardly a minute and a half had been fought when a right-hand swing on the jaw sent him down for the count.

By winning his bout with Bradley Kaufmann has a chance to fight Tommy Burns at Tom McCarey's Pacific Athletic club, Los Angeles, September 4, and he will also be given a chance against Marvin Hart at the Lincoln club later next month.

The promoters want to match Honey Mellody and Joe Thomas for Labor day. Their respective managers, Johnny Mooney and Harry Foley, are willing.

BERGER SAYS O'BRIEN IS AFRAID

WILKESBARRE, Pa., Aug. 8.—Sam Berger, the prize-fighter, who came here today to visit his uncle, Harry Sperling, declared he was ready at any time to sign articles to meet O'Brien after October 1st, when his theatrical engagement expires. He does not believe O'Brien wants to fight him and says he thinks O'Brien's challenge was a bluff and that if he meant business he would not have gone to Europe without signing an agreement.

BAKER WINS; NEIL CRIES ROBBERY

LOS ANGELES, Aug. 8.—Harry Baker of San Francisco, amateur featherweight champion, and Frankie Neil, bantamweight champion of America, fought twenty fierce rounds before the Pacific Athletic club here last night and Baker was awarded the decision. Tommy Burns refereed the bout. His verdict in favor of Baker was loudly cheered by the immense crowd in the auditorium. When the decision was rendered against him Neil stood in the center of the ring dumfounded. He then rushed to his corner, loudly protesting and denouncing the decision.

"I was robbed," he said. "I forced the fight all the way and I have been robbed of it."

Neil showed severe marks of the encounter. His right eye was badly battered and swollen. His left eye and mouth also showed evidences of having received hard punching. His nose was bloodied in the early rounds by one of Baker's straight rights and his face presented a gory appearance throughout the rest of the fight.

Baker showed not a mark at the conclusion of the fight. Baker showed extreme cleverness all the way through. He used a straight left to the face constantly, bringing his right effectually across occasionally. It was the latter blow that seemed to hurt Neil most. In but two rounds did Neil have any advantage over the San Francisco boy and in even those it was slight.

HOW CY YOUNG BROKE INTO GAME

CLEVELAND, Aug. 8.—It was by the merest accident that the famous Cy Young got into the baseball business. He was working on his father's farm at Gilmore, O., and was a regular "Rube" and looked it, when he and a lot of country boys arrayed in rustic jeans, attended the county fair at Gilmore, where two semi-professional teams were to give an exhibition of how baseball should be played.

The local slab artist failed to appear, and, as a desperate resource, they put Cy in to pitch, and his appearance, in regular hay-making costume, created no end of amusement. But not a hit was made off his cannon-ball delivery, and the manager of the Canton, O., club, who happened to be present, signed the big fellow.

The first game he pitched for Canton was against McKeesport, and he struck out eighteen men and shut the team out, not allowing it a single hit.

Cleveland heard of him and on August 5, 1890, they signed Young, and on the same day put him in to pitch against Chicago. The only sub. they had vacant was one that would about fit. Willie Keeler, but Cy got into it in some manner, though his appearance was so grotesque when he appeared on the field that the Chicago players were convulsed with merriment. They did not laugh last in this case, for when the contest was over Cleveland had beaten Chicago 8 to 1. Of the men who played in that game only three are now in major league society, and these are Kittredge, Davis of the White Sox and Young himself.

ATTELL USES TONGUE ON HERRERA

CHICAGO, Aug. 8.—Abe Attell, who is appearing in boxing exhibitions at the Trocadero theater with Morris Rauch, came near having a hot fistic session with Aurelio Herrera in Ike Bloom's Heidelberg on Madison street, with a select crowd of sporting men as spectators. The better judgment of a number of friends of Herrera and Attell alone prevented what might have been a lively encounter.

Herrera entered the place while Attell was talking to Bloom and a party of fight fans. Herrera approached the featherweight champion and accused him of telling Tom McCarey of Los Angeles that he (Herrera) was overweight for his fight with Nelson.

"I did," said Attell, "when McCarey asked me and after you had confessed to me that you were."

The answer of Herrera was couched in the choicest of billingsgate, whereupon Attell advanced menacingly and seized him by the arm.

"Come out of this place with me, you greasy lobster," shouted Abe, "and I will give you what you escaped with Nelson. I have trimmed you twice already, and I am going to make it three straight."

Herrera was reluctant to go, and Attell started dragging him to the sidewalk. At this juncture Bloom and other cooler heads interfered and Herrera was taken to one end of the room until Attell cooled off.

JAKE BECKLEY IS ASKED TO QUIT

Oh, hard luck.

Ole Eagle-eyed Jake Beckley, once the king of all batters, is going to quit the game—by request.

There was a time when Jake was the Whole Thing. He was the man with the Big Stick and pitchers trembled before the stony glare. No team was complete without him. He commanded a princely salary. The bleacherites loved him and managers fought for him.

Now he is forty-one years old and Manager McCloskey of the St. Louis team says Jacob is too old to play baseball any more.

Well, well! Score one more for Dr. Osler.

But don't lose any sleep worrying over Jake's future. He will have money when most of the baseball players are eating snowballs and warming their feet over the basement gratings.

For Jake is going into the race track business. He will be an assistant starter, and an assistant starter makes as much as ten dollars a day—most days.

Jake has been assistant starter at Ascot park, in Los Angeles, for two seasons, working with Jake Holtman.

HORSE RUNS DOWN CYCLIST

Former, With Driver, Escapes, Latter Goes to Hospital

Eddie Petherick, an office boy employed at 368 Sixth street and residing at 1627 Seventh avenue, East Oakland, was run down by a horse and wagon yesterday morning while he was riding his bicycle at Sixth and Franklin streets.

Young Petherick, who is but sixteen years of age, was knocked senseless by the collision and was later taken to the receiving hospital, where a severe laceration over the left eye was sewed up by Dr. H. D. Bell. He later went to his home.

Petherick stated that he did not know who was driving the horse at the time of the accident and that the man drove quickly away after he was knocked from his wheel. The injured lad states that he will make an effort to learn the identity of the driver with the object in view of requesting him to pay for the accident. Petherick's clothes were somewhat the worse for wear because of the affair when he arrived at the hospital.

HE IS NOW FREE TO LOVE

Wife Gets Divorce From Husband She Says Was Unfaithful.

Superior Judge Ogden yesterday granted Nellie B. Christian an interlocutory decree of divorce from Thos. J. Christian on the ground of extreme cruelty. Plaintiff is granted $25 a month for support.

The case, after the filing of the complaint, was referred to Court Commissioner Clarence Crowell. In the testimony given before Crowell, Mrs. Christian stated that her husband had proved faithless to marriage vows and that when she learned that he was in the habit of meeting women other than herself, she suffered extreme mental anguish and for nights at a time could not sleep. She was unable to eat and was intensely worried. She finally became so ill, it is alleged, that her attending physician held out but little hope for her recovery.

Mrs. Christian stated that she tried to reform her husband by treating him kindly when he returned at all hours of the night and morning to his home, but when the residents in the neighborhood commenced to talk of her husband's actions she became much humiliated and tried hard to hide the mental anguish she was suffering.

She found, it was alleged, letters in his pocket from a woman who signed herself "Bess," and in these letters she spoke gushingly of their love and said that from the world's standpoint they would be judged as having committed a sin but she felt that their love sanctified any connection between them.

The plaintiff alleges that she did everything in her power to make her husband ashamed of himself and tried to get him to act differently, but it was all without avail.

BOTH ARE FINED.

Because Fred Lehman and J. M. Cline went into the Chinese restaurant at 817 Franklin street, Sunday, and raised a roughhouse, in which many of the dishes of the eating place were put out of commission, they were found guilty this morning by Police Judge Smith of malicious mischief, and fined $10 each. There was also a charge of petit larceny against the two men, but as no complaint was filed, it was stricken from the calendar.

SERIES OF ACCIDENTS

One Killed, Three Maimed in San Francisco Disasters.

SAN FRANCISCO, Aug. 8.—A series of serious accidents, resulting in the death of one person and the maiming of three others, occurred Monday on the trolly lines of the United Railroads. An unknown man, about forty years of age, was struck and killed opposite South Park. He was riding southbound on car No. 1110, under the charge of Motorman Shirley Moore. When directly opposite the park he leaped from the car, but was unable to avoid the north-bound car. He was almost instantly killed. The patrol wagon was called and took the victim to the Potrero Emergency Hospital, where he died on the operating table.

Hugo Delbuono, a dish washer, was injured at the corner of Sutter and Kearny streets by jumping off car No. 1324, while it was in motion. Both legs were badly crushed below the knees, and had to be amputated. Motorman John Gambo was placed under arrest and charged with battery.

Oswald Herman, a school boy twelve years of age while crossing the street railway track at Eighteenth street, near Caswell avenue, fell in front of car No. 572, in charge of Motorman John Edgar, and had his right leg taken off below the knee. The child's foot was caught in the frog of the switch, and although he tried desperately, he could not extricate himself before the car passed over him. He was taken to the German Hospital, where the leg was amputated.

Peter J. Chadman, residing at 1061 Florida street, sustained three fractured ribs in jumping off a car at the corner of Twenty-ninth and Guerrero streets. He jumped off the front part of the car, but was struck by the rear steps. At his own request he was taken to his home, where he was treated.

George Harold, a refugee, living in Golden Gate, while standing on the steps of a car at Sixteenth and Mission streets, was knocked off by being struck by a dray wagon. He sustained a scalp wound which was stitched together at the Potrero emergency hospital.

POLICE ON HAND

Attend Teamsters' Convention to Prevent Trouble.

CHICAGO, Aug. 8.—Delegates to the Teamsters' convention opened the second day's session with policemen in citizen's clothes on the stairs leading to the hall, uniformed men in the street below and reserves in the city hall across the street. This force was not to protect property or non-union men, but to protect and preserve the drivers themselves in their convention.

Cornelius P. Shea, who led the organized teamsters of Chicago in the great struggle here a year ago, scored a victory yesterday over opponents in the first skirmish of his campaign for control of the International Brotherhood of Teamsters. Opposing factions, one headed by Shea and the other by his chief rival for the office of president, Albert Young, lined up on a preliminary issue of the election and the vote showed that the Shea contingent numbered 132 as against 63 for the Young forces.

It was decided that the election of officers shall take place Thursday. The exclusion of Patrick McMahon, over whose credentials delegates came to blows yesterday, was ratified by the delegates in to-day's session. Forty-one New York delegates were excluded for arrears of dues.

It was also decided to make the convention a closed affair.

NARROW-GAUGE CARS THINGS OF THE PAST

The narrow gauge cars on the Southern Pacific's coast lines will soon be relics of the past. The present narrow gauge line between Alameda and Santa Cruz, which was stopped by the caving in of the tunnel near Wright's station, is being transformed into a broadgauge road, and when it is reopened for traffic the last of these cars will be relegated to the scrap heap.

Some of the old cars have been sold to the North Shore Railroad, to be used in carrying freight, while others are being taken to Santa Cruz to be used for lumber transportation between Boulder Creek, Glenwood and Santa Cruz.

These cars have a little romance mingled with their ordinary humdrum existence. They were used in the time of the Tonopah excitement by the Carson & Colorado narrow gauge, but when the line was broadgauged they were brought back here. At present there are 168 box cars, 377 flatcars, 24 combination cars and 62 passenger cars. They are being loaded on broadgauge flatcars and shipped to various points.

BIBLE STORY IS EXPLAINED

Seventh Day Adventists Hear About Allusion to "2300 Days."

A sermon at the Adventists' camp Monday evening was given by Elder C M Gardner He introduced the subject of the 2300 days as recorded in the eighth chapter of Daniel and beginning with the thirtieth verse His discourse was most interesting and instructive

It tells the story of two saints who are talking One asks of the other "How long shall be the vision concerning the daily sacrifice and the transgression of desolation to give both the sanctuary and the host to be trodden under foot" The answer is "Unto two thousand and three hundred days then shall the sanctuary be cleansed

The angel Gabriel was sent to Daniel to explain the meaning of the above vision He said that the vision should be "at the time of the end and also that "at the time appointed the end shall be"

Then Gabriel explained to Daniel that the rams having two horns were the kings of Media and Persia, and that the rough goat was Grecia. The goat's great horn was the first king or Alexander the Great But Scripture says the great horn should be broken and four should be in its stead This may be read in history as well as in Scripture how at Alexander's death his four leading generals ruled in his stead Out of one of the four should come one to rule fiercely and to destroy God's people The fierceness of this power provoked the question "How long shall be the vision" etc

God allows a nation to rule until its iniquity comes to the full

ROME WAS POWER

The fierce power was Rome Scripture says that this power would even stand up against the prince of princes This it did when Pontius Pilate a Roman governor signed the death warrant of Christ

Then Daniel fainted but later rose up and did the king's business In the meantime he thought upon and prayed about the vision Later Gabriel was sent to explain the remainder of the vision to Daniel Seventy weeks of prophetic time or 490 years of literal time from the commandment which went forth to restore and rebuild Jerusalem were to be determined upon the Jewish people After this they would no longer be the special people of God

This commandment went forth in the ... Scripture ... Jerusalem ... be rebuilt in troublous times ... bear out the statement

... seventy weeks or 490 years ... into three periods of ... sixty two weeks and one week

... years were required ... the sixty two ... would bring ... Messiah ... was ...

... the last week ... the gospel began ... the Gentiles as God's ...

The subject is to be continued

SPECULATORS BUY CLAIMS

Purchase at Discount Adjusted Policies of Traders Fire Insurance Company.

Eastern speculators are in the San Francisco market buying up the claims of the policyholders against the defunct Traders Insurance Company of Chicago

These speculators are offering about 65 cents on the dollar taking the face value of the policy and not its adjusted value as the basis for the transaction

It is charged that L A Moore, adjuster for the receiver of the Traders', has been directing policyholders to one Hiram Haas, a speculator who has offices just below those of Moore in the Canning block It is said that when policyholders have presented their claims to Moore for adjustment and then asked him when the receiver would pay their claims Moore has replied that the receiver would not settle until all the court proceedings have been finished, but that Hiram Haas, three doors below, was willing to pay cash on the spot for all good claims

The Traders Policyholders' Association will make a complete investigation of the doings of the speculators It is rumored that complaint has already been made against Moore to the new receiver, the Citizens State Bank of Chicago and that a new adjuster is to be appointed

GETS LESS THAN COMPANY OFFERED

The Western Pacific Railway company won its point late yesterday afternoon when a jury in the action brought to condemn a right of way over property belonging to Mrs Sarah A Wright of Altamont returning a verdict that gives Mrs Wright less than the railroad originally offered her

This is the second suit that has resulted in this way The Western Pacific made offers for the lands it desired for right of way offering a fair price in almost every instance As soon as it was found that the land was desired by the railroad the owners placed their prices at exorbitant figures whereupon the railroad brought condemnation suits

The verdict rendered this evening gives Mrs Wright $700 for a small fraction less than ten acres at Altamont and awards her damages in the amount of $200 The attorneys in the case agreed on the sum of $1000 for fences and cattle guards

September oats opened ⅛@¼c to ¼@⅜c higher at 31⅜c to 31½c, sold at 31¼c and advanced to 31¾c.

Provisions were inclined to weakness by a 10c decline in the price of live hogs. September pork was off 2½c at $17.10. Lard was also down 2½c at 8.85. Ribs were 5c lower at $9.20.

WALL STREET.

NEW YORK, Aug. 8.—At the opening of the stock market today changes from last night's level of prices were generally narrow, many of the prominent speculative leaders selling at unchanged quotations. Great northern preferred rose 2 and Reading 1⅛, while Colorado & Southern fell nearly a point. Efforts to take the stock at the opening figures revealed a very limited demand. The entire market soon was sold vigorously for a time and prices generally gave way to below yesterday's closing. The market afterwards became very dull and feverish but showed little sign of recovery. Anaconda fell 2, American Ice 2½, and St. Paul, Kansas City Southern preferred, Brooklyn Transit and Consolidated Gas 1 to 1½. American Express added 4 points to its recent sensational rise. Missouri Pacific rose 1 but fell back.

The reaction in prices became more pronounced, the selling pressure centering upon St. Paul, which lost 1¾, and the Harriman stocks. Union Pacific, Northern Pacific, Atchison, Denver & Rio Grande Erie second preferred, Smelting, Lead, Colorado Fuel and Distillers Securities all lost a point, and Sugar 2. Pennsylvania offered good resistance and rose ⅜ over last night. Northwestern gained 1. Rallies were feeble and led to dullness and the heavy tone persisted.

Bonds were irregular at noon.

A few of the important stocks continued to sag slowly, but the general list was firmer, Pennsylvania gaining 1. An incident of the trading was a 3-point decline on a few sales in New York Central three and a halfs. The bonds sold at 92½. Great Northern preferred yielded 2, Wabash preferred 1⅛ and Canadian Pacific 1.

The market moved narrowly in the afternoon on light speculative operations outside of Pennsylvania and Amalgamated Copper, in which the room traders managed to trade profitably. A good portion of the morning's losses were made up gradually, but the transcontinental stocks were sold at times. American Car gave way 1, Cotton Oil 1⅜ and Minneapolis, St. Paul & Sault Ste Marie 2½.

HE WHO RUNS THE ELEVATOR.

Pity the elevator boy, man though he be! Well nigh as great a martyr as his fellow sufferer, the elevated guard, he is the brown liveried and brass buttoned Charon of a modern, perpendicular Styx. He puls the rope and we do the unrest. He runs the only elevator which goes against the grain. He is the human mercury which rises in the tube, but, while others hurry away to business or friedly calls, is left out in the cold, and so—comes down again. He is the victim of mistakes of others, and constantly downs the things he ought not to have downed, and leaves undowned the things which he ought to have downed. Pity the elevator boy.—Guy Wetmore Carryl.

A MERCIFUL JUDGE.

The Kansas City Jurist's Timely Lesson and Rebuke to Society.

That was a remarkable talk made by Judge Wofford over in Kansas City in sentencing a negro murderer:

"Well, you're guilty of murder all right, but you're a poor, ignorant, no account black man, and I don't want to hang you. You have no friends. You have no one to plead that you were insane when you killed this man. If I sentence you to hang you will hang just as sure as there is a God in heaven. There will not be a whole lot of women circulating petitions to save your neck. There will not be a lot of fool men writing letters to the governor to save you. No one will send you flowers. You'll just be forgotten until the day set for your hanging, and then they'll hang you."

The judge might have sentenced him to death by hanging, but he didn't; instead he gave the prisoner thirty years in the penitentiary and imparted to the whole case a flavor by interpolating the extraordinary mixture of satire and geuinely humane sentiment quoted above.

The prisoner had been reared under the worst possible conditions; he was poor and ignorant; he had been in bad company all his life, through force of circumstances which he could not control. The man he killed had slain two men in his day and was known as "a bad one."

Think of the difference had the prisoner been a man of wealth and a member of an influential family! To begin with, he would have been reared amid different surroundings; his mind, his conscience, his sense of right and wrong would have been developed; his crime would have been all the worse for these things. And yet there would have been long legal battles, all sorts of pleadings, all kinds of pressure in powerful quarters in his behalf. Here is a friendless negro who scarcely has had opportunity to learn the distinction between what is right and what is wrong. No one turned over a hand to help him But for the feeling shown by the trial judge he would have gone to the gallows beyond the shadow of a doubt.

It takes just such instances as this to show how imperfect law is, despite the prodigious efforts of man to make it infallible, and to point also to the strangeness of human nature and the weakness of human charity. In saving the neck of the lonely negro Judge Wofford performed a unique act of mercy. The murderer, set free, would have been a menace to life by reason of his ignorance and dull conscience; but these also made him worthy of mercy, and so the judge gave him his life. Would the court have done this but for the activities he had witnessed in behalf of prisoners of higher birth? Did not the inequalities of human sympathy impress him and win his commiseration for the negro at bar? Law, being law, ought at all times to be enforced, say the idealists, and, of course, they are right, but in view of the customary way of enforcing the law why should not this poor negro be entitled to the leniency that would have been forced for a man of friends? To society Judge Wofford gives at once a lesson and a rebuke which should be pondered.—From the Louisville Courier-Journal.

THE PRAISE OF CHESS.

When the Romans placed over the door of the temple of Janus Ex Oriente Lux et Ludus Scacchorum" (Out of the East Came Light and the Game of Chess) they spoke of the two greatest bequests that the storied East had ever made to the young and aggressive West—the light of religion and the greatest mental achievement of man since he came through Eden's frowning portals.

In the Middle Ages, when the monks and abbots watched from afar the brutal soldiery of Christendom swooping down like a pestilence on the sunny plains of the south, they chanted: "A furore Normanorum libera nos, O Domine" (From the fury of the Northmen, deliver us, Oh, God) and returned to chess—all that was left a noble soul in a vain and turbulent world.

Chess is the finest mental drillmaster the world has ever known. As a mind trainer it ranks above Greek and dialectica.

But above all it is the science of battle; it is war without bloodshed; it is strife on equal terms, which all the race loves and to which from the cradle to the grave all mortality is subject.—Charleston News and Courier.

FAIR PLAY.

The American People are Noted for Their Love of Fair Play. So True Is This, That It May Be Said To Be a National Trait of Character.

The man who strikes another a foul blow, or maliciously tries to injure him in his business, or in his social standing is detested and abhorred. The American people are not generally slow to manifest their disapproval of such unfair treatment when an opportunity is afforded.

Illustrative of this disposition is the fact that although base, false and malicious attacks upon Dr. Pierce, of Buffalo, and his widely celebrated Family Medicines have sometimes injured the sale of these meritorious remedies for a time, yet when such unjust assaults have been met and their falsehoods completely refuted, a natural reaction has followed and their sale has been fully restored again.

In the case of the *Ladies' Home Journal*, of Philadelphia, which, in 1904, published a most maliciously false, slanderous and libelous article, attacking Dr. Pierce and his "Favorite Prescription"—the well-known cure for woman's peculiar weaknesses and distressing ailments—Dr. Pierce brought suit in the Supreme Court of the State of New York against the publishers of that paper and a verdict was given the Doctor, the judgment being for a substantial amount ($16,000.00) yet not for enough to properly recompense Dr. Pierce for the great injury and injustice done him. While he and his "Favorite Prescription" were completely vindicated and the latter remedy was proven, in open court, to contain no alcohol and none of the dangerous and injurious drugs which the above mentioned paper had alleged it contained, yet Dr. Pierce has, through his attorneys, moved for a new trial trusting that thereby he may finally be accorded a more just and adequate compensation for the great damage which he was made to suffer by reason of the base falsehoods published concerning him and his business.

There are hundreds of thousands of people all over this blessed country of ours who have been cured of obstinate, chronic diseases through the use of Dr. Pierce's Medicines and it is only natural that such people should rise up and speak their sentiments pretty freely when Dr. Pierce and his medicines are so unjustly attacked.

These grateful patients of Dr. Pierce are to be found in almost every hamlet and country village, and in the farmhouses and mechanics' cottages in every nook and corner of this great country. Common gratitude prompts such people to stand up and defend Dr. Pierce and his medicines against unjust and malicious attacks.

Dr. Pierce's Medicines have been on sale in drug stores all over this country and in many foreign lands for more than forty years and yet their sale continues to grow in a substantial and most gratifying way. This could not be the case if they were not remedies of more than ordinary merit.

WHAT DO THEY CURE?

Dr. Pierce's Favorite Prescription is not advertised as a "Cure All" but admirably fulfills a singleness of purpose, being a superior and most positive remedy for one class of diseases only—those easily recognized weaknesses, derangements, irregularities and painful disorders peculiar to women. It is a powerful, yet gently acting, invigorating, tonic and strengthening nervine. For weak, worn-out, over-worked women—no matter what has caused the break-down,—whether it be from too frequent bearing of children or from much worry, care, or over exertion of any kind, Favorite Prescription" will be found most efficient in building up the strength, regulating all the womanly functions, banishing pain and bringing about a regular and healthy, vigorous condition of the whole female system. Thus it corrects prolapsus, or falling of womb, retroversion, anteversion and other displacements of the female pelvic organs due to weakness or over exertion, lifting or fatiguing overwork. In short, it makes weak women strong and sick women well.

As to Dr. Pierce's Golden Medical Discovery it has a very large range of application, yet it is by no means recommended as a "Cure-All." It possesses marvelous alterative, or blood cleansing, properties and is at the same time a most invigorating tonic, or strength giver. It exerts a specific, cleansing soothing and healing effect upon all the lining mucous membranes of the system; hence, its great curative value in all catarrhal affections, no matter where located.

In Chronic Nasal Catarrh, it is well to cleanse the passages two or three times a day with Dr. Sage's Catarrh Remedy fluid, while persisting in the use of the "Golden Medical Discovery" for its blood cleansing and specific curative effects upon the diseased mucous membranes. It will cure a very large per cent. of all cases, even after they have reached the ulcerative, or chronic stage, and *no matter of how many years' standing they may be.* It is equally efficacious in affections of the mucous lining of the larynx, bronchia and respiratory organs in general, thus curing bronchitis, laryngitis and other affections giving rise to obstinate, hang-on-coughs. It is not so good in acute coughs following sudden colds, as in the lingering, chronic coughs. Nor must the "Golden Medical Discovery" be expected to work miracles. It will not cure consumption in its advanced stages—no medicine will do that, but for all obstinate hang-on-coughs due to laryngial or bronchial irritation and kindred affections, of the throat which, if neglected or badly treated, are likely to lead up to consumption, the "Discovery" can be relied upon to produce the best curative results.

The "Golden Medical Discovery" is, from its tonic and specific curative control over mucous surfaces, especially efficacious in curing indigestion, dyspepsia, weak stomach and "Liver Complaint," or biliousness. Even ulceration of the stomach and bowels has in thousands of cases been cured by it; also obstinate chronic diarrhea.

In addition to all the foregoing, not the least valuable of the marvelously efficacious properties possessed by the "Discovery" is the unequaled regulating and strengthening effect exerted by it over the heart's action. It has made some wonderful cures of very pronounced valvular and other affections of that organ.

The reason why "Golden Medical Discovery" cures so wide a range of diseases is made plain in a booklet sent free on request mailed to Dr. R. V. Pierce, Buffalo, N. Y. If interested, send for it.

The powerful alterative or blood purifying properties possessed by the "Discovery" will naturally suggest its use for the cure of blotches, pimples, eruptions; as eczema, salt-rheum, and other skin affections in all of which it has made remarkable cures; also in scrofulous sores and old, open ulcers, or eating sores. To heal the latter, use Dr. Pierce's All-Healing Salve as a local application, while taking the "Golden Medical Discovery" to correct the blood and cleanse the system. A box will be mailed to any address on receipt of fifty-four cents in stamps. If your druggist don't have it in stock, address Dr., as above.

WHERE DESIRABLE HOMES WILL BE BUILT

One of Oakland's Choicest Subdivisions Placed on the Market at Low Prices.

So rapid has been the growth of Oakland the past ninety days that it almost requires an expert accountant to keep in touch with the growth.

There are many very desirable subdivisions lately placed before the buyer but where can a homeseeker find price and desirable location equal to the Highland Park Terrace now being sold by the Laymance Real Estate Company.

Inspiring landscape, salubrious climate, excellent drainage, beautiful environment, matchless streets,—in fact everything that contributes to making good, pleasant homes. This company has within the past week sold $20,000 worth of this choice tract. One nice feature to the whole proposition is the easy terms prevailing in purchases. Here the home seeker can buy enough large frontage for a beautiful suburban home and put up a good home for at least $3,000 with all the environments of a country home, with fruit, flowers, etc.

Accessibility also enters into the claims that Highland Park has upon the homeseeker.

Street car lines surround the tract, local tracks just a little way off and transportation is purely a recreation for tired business brains.

Many elegant, well cared for homes surround the tract, such as those of J. C. McMullen the well known banker, George H. Lee and Charles H. Jones. Here is destined to be one of the prettiest residence sections of greater, prettier Oakland.

OAKLAND, Cal., Aug. 8.—A special dispatch has been received by General Agent T. J. A. Tiedemann from the head office of the Scottish Union and National Insurance Company, giving the latest statement of the company, which is as follows:

Capital	$30,000,000.00
Total assets	51,612,540.25
Assets in United States	5,379,583.06
Net surplus in U. S.	3,338,052.82

This fine old company was organized in 1824 under the unlimited liability laws of Great Britain, Sir Walter Scott Bart, the distinguished author, being its first president.

Its net losses in the San Francisco fire amount to $1,200,000, and of this amount it has already adjusted on the dollar-for-dollar basis, and paid by sight draft nearly $1,000,000. After paying all losses incurred through the San Francisco conflagration the Scottish Union and National Insurance Company will have in the United States alone a net surplus of over $2,000,000, sufficient to meet a similar catastrophe should such a misfortune occur elsewhere.

Charles Johnson Jr. is spending three weeks at Lake Tahoe. Recently he sent home a case of mountain trout, some of which weighed more than three pounds.

UMPIRES BACKED UP BY PRESIDENT

NEW YORK, Aug. 8.—The game scheduled to be played in this city between the New York and Chicago teams of the National Baseball League must be played, despite the trouble at the Polo Grounds yesterday.

President Pulliam gave out the following statement today:

"The New York-Chicago game, scheduled for August 7, stands on the league records as forfeited to Chicago by a score of 9 to 0, and said result has been tabulated and counted. I upheld the action of the umpires absolutely and if I am not sustained by the National League board of directors, I will, not only resign my position as president of the National League, but I will quit professional baseball forever. I am a National League man through and through and will never serve an other organization. It has always been my ambition to one day own a National League franchise, but if blackguardism, jobbery and bulldozing tactics are to be upheld by the oldest professional baseball organization in America I would not have the best franchise in the National League as a gift.

"I won't discuss my umpires assignments for today's game or any other game. They are confidential and known only to me and my staff of umpires. But they will be on hand for the game this afternoon and the teams will play unless weather conditions prevent."

A meeting of the Central Oakland club will be held at 4906 Telegraph avenue this evening.

MANY TURNS IN THE POLITICAL ROADWAY

Some New Points in State Politics--What the County Politicians Are Doing.

By JOSEPH E. BAKER.

Charles H. Spear, president of the Harbor Commission, returned home from a jaunt to the other side of the Tehachapi. He was in good spirits and said he considered Pardee's prospects for the nomination very bright. He said the Gillett people were making unfounded claims and figuring on unlikely contingencies. He said he could figure out at this time at least 300 sure delegates for the governor, with an excellent prospect of several bunches more. It requires 413 votes in the convention to nominate.

There is talk of switching Judge Burnett of Sonoma into the fight for judge of the Appellate Court in the northern district. This will make things bad for either Judge Chipman of Tehama or Judge Buckles of Solano, since Judge Hart of Sacramento is considered to have a surer chance of nomination than any of the other candidates. But the reported split between Judge Lorrigan and J. O. Hayes in Santa Clara county may increase the chances of Judge Burnett and Judge Oster of San Bernardino. It is said that Lorrigan will put a separate ticket in the field against the one announced by the Hayes brothers. Harbor Commissioner Johnny Mackenzie will be behind Lorrigan. This ought to help Pardee in the final show-down, since Mackenzie owes his position on the Harbor Commission to the governor. What Jim Rea will do has not been announced. He has always heretofore been a warm friend of Lorrigan.

Gillett's friends are banking a good deal on the invitation extended by the labor leaders for the congressman from the First district to attend the labor meeting at Vallejo, but men high in labor councils assert that the invitation was not intended to be an endorsement of Gillett's gubernatorial candidacy, but as an approval of his course in Congress relative to the labor bills. Knowland and Gillett were the only congressmen present. Former Congressman Theodore Bell was among the invited guests, while Duncan McKinlay, against whom Bell will be again a candidate, was left off the invitation list. This has caused some heartburning, of course, but Vallejo is not in McKinlay's district and is Bell's native town.

There has been no clearing of the atmosphere in local politics, but the situation in regard to the fight for coroner and district attorney remains practically unchanged. M. J. Kelly now seems assured beyond peradventure of the nomination for county treasurer, but unless Mehrmann can break the combination formed against him, Tisdale will get the nomination for coroner.

Everett J. Brown is making an energetic fight for district attorney. He is striving for the Republican nomination. I stated a few days ago that Clarence Crowell had another guess coming. I think so yet. That opinion was not given to prejudice Crowell's chances, but as the result of an impartial survey of the situation. It is virtually impossible that Crowell and Mehrmann should both win, and quite within the cards for both to lose. With both Mehrmann and Crowell off, the Fiftieth district would still be represented on the ticket by Everett J. Brown and George W. Frick for county superintendent of schools.

However, there is plenty of time yet for revising slates and making new combinations, and even a day may bring forth an altered complexion of affairs. I am not making slates, only trying to tell the public as nearly as I can how matters stand.

Johnny Teague, not altogether unknown to fame, says he has got the assembly's nomination in the Forty-ninth district treed and ready to come down without shooting. I asked Jack Burke if that was son, and Burke said he hadn't heard of it. A friend of Burke's, however, volunteered the statement that Teague is color blind in politics and unable to distinguish a cinch from a shroud. This is supposed to be plain English in the frazzle end of the Forty-ninth.

Justice Quinn, who holds the belt as the greatest jurist the Watts tract has ever produced, denies that he is a resident of the Fiftieth district. He is still holding down the salt grass section of the Forty-ninth, though he makes an occasional foray across the border in the Fiftieth.

Secretary of State Charles F. Curry has been quietly moseying around Oakland for the past three or four days. He seems to be keeping excessively still for fear some of the gubernatorial candidates will accuse him of butting in. Curry is sure of renomination, and has no need to worry.

J. F. Frick, brother of A. L. Frick, former Superior judge, and George W. Frick, former superintendent of schools, is a candidate for assessor down in Santa Barbara county. He is now supervisor of the Lompoc district. Frick is a former Oaklander, and is better than a green hand at the game of politics.

Reports from all over the state indicate that Supreme Justice F. W. Henshaw will be renominated with little or no opposition. He is strongly backed by the bench and bar in nearly every county.

Santa Barbara's sixteen delegates belong to Judge Taggart, who wants to be judge of the appellate court. It has been reported that Santa Barbara's delegation would be for Warren Porter for governor, but it all depends upon how Judge Taggart sees things.

Governor Pardee is back from Los Angeles. He was in Oakland yesterday, and seemed to be in the best of spirits.

than three miles from shore. It is evident that at least eight or ten schooners believed to be Japanese are sailing in clos proximity to the islands. The twelve prisoners were taken on the cutter McCulloch to Kodiak and after a hearing before the commander were held before a jury and taken in charge by the marshal."

ASKS FOR NEWS.

The Japanese Charge, Mr. Niyaoka, called at the State Department this morning for information about the killing of Japanese. He had received no dispatches from his government concerning the affair and Acting Secretary Bacon gave him the same information which was sent to Ambassador Wright.

Sealers are recognized as property by international law and the Japanese killed by American officers off St. Paul island stand in the same position as burglars shot in the act of stealing, according to prominent authorities on international law. No international incident can arise from the shooting of the Japanese poachers, it is said at the State Department. This government has no amends to make to Japan other than those that courtesy pay prompt and a mere expression of regret that such an incident should take place is all that is looked for. Japan has no treaty obligations which in any way require her to protect seals in the Bering sea.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters: "It's a Godsend to mankind. It cured me of lame back, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in fifty minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all stomach, liver and kidney complaints. Sold under guarantee at Osgood Bros', drug stores, Seventh and Broadway and Twelfth and Washington streets. Price 50c.

LYNCHERS ARE ON TRIAL

SPRINGFIELD, Mo., Aug. 8.—The trial of the men charged with the lynching of several negroes here several months ago was begun today. Soon after the trial was begun, J. L. Maxey, one of the regular panel of jurors, received word that his house, fifteen miles west of Springfield, had been struck by lightning, his two children killed and the house destroyed. He was excused from further service.

WE SELL FINE PIANOS

Because when you call at our store we are not afraid to show you a fine article for a reasonable price. When you know the real value of a high grade piano you will purchase no other. We would rather give you a little more time in which to pay for a good piano, or give you a closer price, than to sell you a cheap, unreliable instrument. Music is a refining influence in the home when produced by a fine instrument, but if it is not it would drive the most devoted member of the family from home, and your children, whom you want to be musicians, will only tire of the piano and you will never awake the interest in them again.

We believe in high grade goods, although if you must buy a cheap new or second hand piano, we always have them for prices as low as any house in America, but do not make a specialty of them. Some beautiful Knabe, Ludwig, Packard, Price & Teeple and Smith & Barnes pianos have just arrived. Call and look them over and see if you don't agree with us. Only a pleasure to show them, even if you are not ready to purchase. We want to meet you.
